

CIMC

IMPORTANT NOTICE

The Board, the Supervisory Committee and the Directors, Supervisors and senior management of the Company have been faithfully and impartially performing their duties in the 2017 interim period (hereinafter referred to as the "Report"), and jointly and collectively accept full legal responsibility for the truthfulness, accuracy and completeness of the information contained in this Report.

The Report has been reviewed and approved at the 11th meeting of the eighth session of the Board in 2017 (hereinafter referred to as the "Meeting"). Mr. Wang Yuhang, Vice Chairman, honorable member of the Meeting, Mr. Li Chong, non-executive Director, acted on his behalf. All the Directors attended the Meeting.

The financial statements of the Group have been prepared in accordance with China Accounting Standards for Business Enterprises (CASBE). The interim financial statements and notes (hereinafter referred to as the "2017 Interim Financial Report") of the Group for the interim period ended 30 June 2017 were prepared in accordance with CASBE in this Report have been audited.

Mr. Wang Heng, in-charge of the Company and chairman of the Board, Mr. Mai Biliang, CEO and Director, and Mr. Zeng Han, general manager of the financial management department, in-charge of accounting affairs and head of the accounting department (the financial controller), hereby assure the truthfulness, accuracy and completeness of this Report and the 2017 Interim Financial Report.

Neither the controlling shareholders (including indirect) nor the substantial shareholders (including indirect) of the Company have any interest in the Company.

The Company did not distribute cash dividends, interest or other forms of remuneration to its shareholders for the interim period ended 30 June 2017 (interim period ended 30 June 2016: Nil).

This Report contains forward-looking statements made on the basis of best estimates and judgments of the relevant and economic development in relation to the financial condition, earnings and business of the Group, which are subject to various risks, uncertainties and assumptions beyond the Group's control and to a high degree of uncertainty in nature. Therefore, the actual results may differ materially from the forward-looking statements. Such forward-looking statements are not the economic reality of the Group nor have they been and are not guaranteed for future performance and do not constitute any contractual commitments in nature. Investors should be aware of the reliance on the financial information made in the financial statements.

This Report has been prepared in both Chinese and English. In the event of any inconsistency between the Chinese and English versions, the Chinese version shall prevail.

This glossary contains certain definitions of technical equipment used in this Regulation in connection with the GMDSS. Some of these definitions may be found in the standard definitions page.

Items	Definitions
CNG	Compressed Natural Gas.
FLNG	Floating Liquefied Natural Gas.
FPSO	Floating Production Storage and Offloading.
FSRU	Floating Storage and Regasification Unit.
HSE	Health, Safety and Environment.
GSE	Ground Support Equipment, equipment used on the flight deck. This equipment facilitates maintenance and flight, air traffic, and includes a wide range of ground support equipment, including but not limited to mechanical, electrical, hydraulic and special gas equipment.
Jack-Drilling Platform	A jack-drilling platform is a mobile drilling rig installed offshore in a shallow sea. Most jack-rigs are in a depth ranging from 250 to 400 feet. This drilling equipment is generally used for mining machines, electrical, equipment and accommodation facilities for drilling and certain liftable derrick platform floating in the sea.
LNG	Liquefied Natural Gas.
LPG	Liquefied Petroleum Gas.
Modular Building	A building manufactured in a factory environment and transported as a pre-erected structure to be installed.
ONE Model	Operational Excellence, the lean management system of the GMDSS.
QHSE	A management system guide and control program in the field of Quality, Health, Safety and Environment.
Semi-buoyable Drilling Platform	A semi-buoyable drilling platform is a mobile rig; the upper part of the hull is connected to the deck and the lower part is connected to the hull, in the connected buoy column. When in operation, the lower hull is submerged in the sea. A semi-buoyable platform is generally used in deep sea depths ranging from 600-3,600m. The platform is a dynamic positioning system.
TEU	Ten-foot equivalent unit, a standard unit (a container with a length of 20 feet, a height of 8 feet and 6 inches and a width of 8 feet), being used to measure the volume of a container.
VOC	Volatile Organic Compound.

12 Chapter III Report of the Board

I. BUSINESS SUMMARY

The Group's subsidiaries are engaged in the manufacture of iron and steel products, energy, chemical and liquid products, offshore engineering services and auxiliary facilities, as well as the provision of cleaning services, including the design, manufacture and service

in 9 0 0 9 29a-2()TJ6 . i i ni1d.3((e)13.4()50)98((e, iD[(c 0a.066 8(8())g)1d-()g)1c n aai 0 -1.70.066 8(eef TD3

14 Chapter III Report of the Board

During the Reporting Period, the accumulated sales volume of international container of the Group reached 535,700 TEU (accumulated in 2016: 238,300 TEU), increasing year-on-year by 124.80%; the accumulated sales volume of domestic container reached 35,100 TEU (accumulated in 2016: 22,300 TEU), increasing year-on-year by 57.40%. The container business of the Group recorded a revenue of RMB10,049.055 million (accumulated in 2016: RMB4,898.618 million), increasing year-on-year by 105.14%; and the net profit of RMB681.102 million (accumulated in 2016: recording a net loss of RMB139.632 million), gaining profit again from the loss recorded in the year.

In the first half of 2017, the demand in the inland container industry of the Group increased, and the number of orders was higher than expected. As the production of inland container finished in inland container manufacturing enterprises in China from 1 April 2017, the container domestic production line experienced the peak year of production in the industry. The Group increased the production of inland container line and met the demand of clients. The Group was able to exceed the inland container production plan. Meanwhile, the company had achieved a major breakthrough from the loss in the year, with the excellent achievement. In addition, in the new year, the government enterprises and in compliance with the legislation, the Group made great achievements in HSE in the container manufacturing business during the Reporting Period. The container production plan had reached a high level. The production of container in Fenggang of Dongguan City grew in an absolute amount, and it is expected that the production of container will be in a high beginning of the year.

Road Transportation Vehicle Business

With the 'Global Manufacturing' (全球运营, 地方智慧) as the business philosophy, CIMC Vehicle (Group), as a subsidiary of the Group, is a global leading manufacturer of special vehicle production, including global commercial vehicle production, heavy-duty special vehicle and trailer. CIMC Vehicle (Group) has established 25 production and distribution departments in China, North America, Europe and emerging markets, and developed different production lines for special vehicle production of 10 series and more than 1,000 models, including container semi-trailer, flatbed/tracked-side semi-trailer, lift-flatbed semi-trailer, vehicle loaded semi-trailer, truck, crane truck, tanker truck, dump truck, anti-rain truck and special vehicle, covering major domestic and international markets.

In the first half of 2017, the global manufacturing industry and the medium and heavy-duty truck market in China all became stable. The market is a noticeable trend in the replacement of high-end trucks and heavy-duty truck benefiting from the ended impact of the implementation of the lifting of the mandate of inland container limit of dimension, a large number of vehicle, trailer and combination of vehicle (GB1589-2016) from large to the central government in 2016 and the container domestic production again increasing. Meanwhile, medium-duty infrastructure projects commenced construction, which boosted the growth of demand for intelligent truck. In the year-end market, although the high performance in the North American market remained strong, the overall demand for semi-trailer declined. With the economic decline in Europe, the demand in the local market in emerging markets also began to

During the Reporting Period, benefiting from the business growth in Chinese and European markets, the Group's main vehicle business achieved sales of 81,468 units (compared in 2016: 58,231 units), increasing year-on-year income by 39.90%. It recorded expense (excluding the headquarter cost) of RMB9,719.601 million (compared in 2016: RMB7,013.354 million), increasing year-on-year income by 38.59%, and achieved net profit (excluding the headquarter cost) of RMB568.016 million (compared in 2016: RMB361.893 million), increasing year-on-year income by 56.96%.

During the Reporting Period, CIMC Vehicle (Group) continued improving the global sales management system, enhanced the sales efficiency of each business unit and the cost efficiency, and focused on the income and development of the incremental business and the innovation business of each business unit to realize the high quality. In the PRC market, as CIMC Vehicle (Group) fully implemented the energy strategy, continued to gain the leadership and replacement in the light truck and medium truck segments and enlarged its marketing strength and coverage in the first half of the year, the Group's combined market share has exceeded 55% of the annual average in the medium and heavy-duty vehicle. In the overseas market, in order to eliminate the cyclical decline in the market, CIMC Vehicle (Group) actively expanded its coverage in the North American market, and focused on its leading

16 Chapter III Report of the Board

During the Reporting Period, the major business segments of CIMC EnC made tremendous achievements in the field of 'new, green, intelligent' and enhancing business efficiency. (1) The energy business segment carried out in-depth implementation measures, improved efficiency, and enhanced management. The business segment achieved unified management in making firm decisions and taking actions. The segment also improved the business and service model, took business initiatives, and deepened cooperation. (2) During the Reporting Period, again the backlog in the chemical business segment, the bank balance of CIMC EnC declined and operating performance amid the fierce market competition. Standard bank balance, gas bank balance, LNG bank balance and oil bank balance all exceeded excellent performance. (3) After consolidation of Ziemann and Bigg Limited, the listed subsidiaries business segment had become a leading company in the liquefied gas and chemical industry. Meanwhile, the segment kept holding in China and Europe and expanded its business in China and its market in Asia. The consolidation of Ziemann Holdings America Limited.

As mentioned in the 2016 Interim Report, 2016 Annual Report and the related announcements of the Company, on 1 June 2016, CIMC EnC announced the acquisition of all shares in SOE from the end of and the financial assistance SOE due to the failure in fulfillment of the acquisition conditions in the relevant agreement by SOEG PTE LTD, Jiang Pacific Shipping Group Co., Ltd. and Egeen Group Co., Ltd., and ended the relationship with SOE and SOE's bank loan. After the completion and cancellation of the

acquisition and cancellation of the amount receivable, CIMC EnC made improvements in RMB1,214.880 million in the amount of SOE in the interim period of 2016, and made further improvements in the end of 2016, resulting in a total amount of RMB1,362.915 million for the half-year. Accordingly, CIMC EnC increased net income in the interim period of 2016 and the year 2016, and the Company recorded a net loss in the interim period of 2016 and a significant decline in net income in the year 2016.

Considering the SOE industry's high receivable and business and management and collaboration with the business of CIMC EnC, on 5 July 2017, CIMC EnC, through the wholly-owned subsidiary CIMC EnC Investment Holding (Shenzhen) Ltd., entered into the Restructuring Investment Agreement with SOE and SOE Bankruptcy Liquidation Team* (南通太平洋破产清算组) to acquire the shares of SOE. On 4 August 2017, the SOE Restructuring Plan approved by SOE's creditors' meeting and approved by the court in China in accordance with the relevant laws in China. SOE will implement the Restructuring Plan under the supervision of the Receivable-creditor. On 15 August 2017, SOE has become an independent wholly-owned subsidiary of CIMC EnC and the Restructuring Investment Agreement and the Restructuring Plan and has become an independent wholly-owned subsidiary of the Group. SOE is named as 南通中集太平洋海洋工程有限公司 (Nantong CIMC Sin Pacific Offshore & Engineering Co., Ltd.*). Further, the relevant announcements published by the Company on 6 July, 4 August and 16 August 2017. Accordingly, the financial results provided by the Receivable-creditor are available amount of the amount of SOE of CIMC EnC amounted to RMB190.521 million as at 30 June 2017. Accordingly, CIMC EnC will make additional improvements of RMB105.549 million for improvements for the Reporting Period. Such improvements included in the 2017 consolidated interim financial statements of the Group.

18 Chapter III Report of the Board

In the first half of 2017, the global economic recovery continued to be slow. In the first half, the ability to expand and favorable import and export, and the impact of the trade war remained. In the first half, the international market in the domestic logistics industry is still in a low state, the shipping price remained low and the demand for significant improvement in the performance of the industry. In addition, factors such as the impact of the international trade environment in China also affected the international shipping business in the logistics industry.

During the Reporting Period, the Group's logistics business achieved a total revenue of RMB3,751.202 million (compared with 2016: RMB3,218.617 million), increasing year-on-year by 16.55%, and net profit of RMB57.340 million (compared with 2016: RMB68.434 million), decreasing year-on-year by 16.21%. During the Reporting Period, affected by the adjustment in the business line in Mongolia, the group's profit margin of the business declined, resulting in a year-on-year decrease in net profit.

In the first half of 2017, the logistics service business of the Group realized the following major business lines: (1) The container service business line specified the development strategy of the company in the 13th Five-Year Plan, namely, to expand container operations, tank container operations, half service, rail operations and air operations, service for the container, and the expansion of the container and global container operations and management. It realized the layout of container operations in Southeast Asia (Thailand and Vietnam) and the network layout in container operations in the sea. It also enhanced the overall performance of the end-hand container business and the channel and business of the container. (2) The shipping and ocean logistics service business line achieved the market share in the shipping market of the national flag, the Mediterranean, the Red Sea, the Indian Ocean and the shipping and freight forwarding, ocean logistics and container logistics business. It enhanced and strengthened the service network

of freight forwarding in the global region such as Xiamen and Shenzhen and improved the national layout of freight forwarding in the domestic market. It also enhanced the freight forwarding and freight forwarding. By expanding the network of the container service business line and taking Thailand and Vietnam as the main focus, it gradually carried out the expansion in the region including the Southeast Asian region, and actively carried out the network layout in the Red Sea, the Mediterranean, the Black Sea and the Middle East and Central Asia by carrying out the global leading service in the field of business and cargo. (3) The rail-based business line kept on improving efficiency in business and

In the first half of 2017, the regulatory policies on real estate in the real estate market in China kept strengthening. In the implementation of the strengthening of the financing and lending policies, all the regulatory measures. The government also introduced the real estate market demand management measures. Under the guidance of the strengthened policies, the real estate market maintained a moderate and steady growth. The overall trend of the housing market remained a steady decline in the bidding competition between different cities.

During the Reporting Period, the Group's real estate business achieved a total of RMB297.664 billion (compared in 2016: RMB315.698 billion), decreasing a year-on-year decrease of 5.71%, and net profit of RMB65.035 billion (compared in 2016: RMB42.775 billion), increasing a year-on-year increase of 52.04%, which mainly due to the receipt of agency service fee from the land use right transfer of the land use right transfer during the Reporting Period.

In the first half of 2017, CIMC Skyspace Real Estate strengthened its efficiency in the operation of industrial parks, and the management of industrial parks became more mature. In March 2017, it established a project management office in Beijing and accelerated the implementation of an industrial real estate project in the New Shijiazhuang City Shijiazhuang Service Zone in Beijing. In April, CIMC Elite Apartments entered in Songshan Lake, Dnggb an aakeng he3(e ed ng)13.1(n)13.1(he)13(3(ea e)32())TJ0.043 Tc 0.245 T 0 -1.412 TD[(h ling) eUKSOe ea Sin .e i nSC ee m0.5(bf)0.6(dhe)].5()0.6(d)TJ0.092 Tc 0.226 T 0 -1.412 TD[(d abli hed)n)L nd inded n i nal end in c b 54.7(.)345 In

24 Chapter III Report of the Board

In respect of the road transportation vehicle business, in the second half of 2017, the judicial demand for the semi-trailer industry in the United States will begin to experience downturn. The economic environment will maintain the momentum of recovery. There will be big changes in the economic environment of emerging markets. The Chinese market will continue to be able and favorable economic momentum. In the field of new energy in real estate and infrastructure investment, the second half of the demand for machinery will decline. At the same time, the implementation of fiscal measures, which include advancing the management of fees, reducing the investment and construction of infrastructure, the change of yellow-label vehicle to green-label vehicle, the ban on international green and import of semi-trailer standard vehicle and so on, will accelerate the industrial transformation and upgrade of all aspects of the industry and upgrade.

In respect of the energy, chemical and liquid food equipment business, after the implementation of the 13th Five-Year Plan on Energy Development in 2016, the National Development and Reform Commission in China implemented the initiative of the Opinion on Accelerating the Use of Natural Gas, accelerating the use of natural gas in urban gas, industrial fuel gas, etc. In addition, the 5(i)0.52CT 0 - heeandm-1.412 4 is the key in the development of the industry, which will be beneficial to the energy industry in China.

In respect of the offshore engineering business, in the second half of 2017, the global oil and gas market will continue to be stable and the global energy market will have the global energy market. The global oil price is 5(i)0.52CT 0 - heeandm-1.412 4. The

and major infrastructure investment in the energy industry and the demand for medium and heavy

equipment and the global vehicle market will continue to be stable and the mining industry will continue to be stable. The demand for heavy

In respect of the airport facilities equipment business, in the second half of 2017, the global aircraft business recovered gradually and the growth in the emerging American market and Africa continued. Building bridge business will give the company a new impetus in the American market. Fighting equipment business is affected by fiscal budget cuts in Europe and China, but will continue to be stable in the Chinese market. Logistics industry gradually recovering, the industrial demand and cargo business recovered, making a great breakthrough in the field. The newly developed high-dimensional baggage business will bring a large and brand new market.

In respect of the real estate development business, in the second half of 2017, it is expected that the financial policies in relation to the real estate market in China will have a greater influence on the housing market. The real estate market will be more stable, and investment and transaction cycle will be prolonged. In the long run, the housing price will gradually stabilize because of the limited cycle. The special financial policy will be more dependent on the development of the financial industry, which will provide a better environment for CIMC Skanska Real Estate.

In respect of the financial business, in the second half of 2017, the global money market continues to be tightened. Rate hike and tightening balance sheet by the Fed will increase global economic and financial risk. Affected by the real estate regulation and financial deleveraging, the investment in fixed assets in China will face downward pressure. The growth in macro-economy may be slow and the financial market will be in the end. The financial leasing industry in China will maintain its growth momentum but a slow pace. The increasing financing cost will facilitate the industry to shift. Under the impact of deleveraging, domestic credit risk will continue to be alleviated. The increasing risk of financial leasing enterprises will increase.

3. Overall Operation Targets and Initiatives for Main Business Segments

In the second half of 2017, the Group will continue to implement the strategy of Manufacturing + Service + Finance, continue to carry out business expansion and upgrading and extend the manufacturing business service coverage based on customer demand, highlighting a comprehensive line business. The Group will continue to enhance global operation, improve business and production, and speed up the industrial cluster construction and advance industrial chain. Innovation will be continued in manufacturing, business model and management mechanism, which the company expects will be controlled. The Group will take care of the business growth, make change and expand the emerging industry and innovation business achievements in all fields.

In respect of the container manufacturing business, in the second half of 2017, the Group will focus on cost reduction, improve quality and customer service, and continue to lead the industry, and make further efforts to enhance the efficiency and ability to fully utilize the manufacturing capacity. The company will continue to improve the HSE management. In the second half of the year, the Dongguan Fenggang project will enter the final construction phase. The company will continue to improve the management and control.

26 Chapter III Report of the Board

In respect of the road transportation vehicle business, in the second half of 2017, it will continue to implement the strategy of the company in the domestic market. While focusing on the semi-trailer business and the engineering business, the Group will continue to improve efficiency in the engineering business through innovation in business models, and will continue to improve the company's competitiveness in the domestic market and realize the company's strategic goals. In domestic market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In North American market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In European market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market.

In respect of the energy, chemical and liquid food equipment business, in the second half of 2017, it will continue to implement the strategy of the company in the domestic market. While focusing on the engineering business and the liquid food equipment business, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In domestic market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In North American market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In European market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market.

In respect of the offshore engineering business, in the second half of 2017, it will continue to implement the strategy of the company in the domestic market. While focusing on the engineering business and the offshore engineering business, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In domestic market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In North American market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In European market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market.

In respect of the logistics services business, in the second half of 2017, it will continue to implement the strategy of the company in the domestic market. While focusing on the logistics services business and the engineering business, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In domestic market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In North American market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market. In European market, the Group will continue to improve the company's competitiveness in the domestic market through innovation in business models and improve the company's competitiveness in the domestic market.

28 Chapter III Report of the Board

Risk of industry policy upgrade: China's economic development in the normal and the government of China in the "Made in China 2025" and "Belt and Road" initiative, which will deepen the reform of the supply-side structure and the industrial structure. The new industrial policy, agricultural policy, energy policy, financial policy and land policy, etc. have a high

CHAPTER IV Operation Discussion and Analysis Prepared in Accordance with the Domestic Securities Regulatory Rules

I. BUSINESS OVERVIEW

(I) Principal Business Engaged by the Company during the Reporting Period

The principal business engaged by the Company and its subsidiaries during the Reporting Period, include the I. Business of Shima and II. Relative of Principal Business during the Reporting Period under Chapter III Relative of the Board in this Report.

(II) Significant Changes in the Major Assets during the Reporting Period

1. Significant Changes in the Major Assets

During the Reporting Period, there is no significant change in the major assets of the Company.

2. Main Overseas Assets

All assets are in the Mainland of China.

(III) Analysis of Core Competitive Advantages

Strategic Positioning of "Manufacture + Service + Finance"

The Company has formed an industrial layout spanning both the high-tech and energy fields, and has developed major business segments in the industry-leading high-tech and green energy, and will continue to expand and develop emerging industries which help to give full play to the Company's advantages. While deepening its edge in traditional industries, the Company has formed a comprehensive demand-oriented business system in the form of manufacturing + service + finance, focused on the high-tech and energy fields, and established the strategic positioning and industrial ecosystem of "manufacture + service + finance".

Development Philosophies of Business Diversification and Globalisation

The Company has always been committed to the sustainable business diversification and globalized development. The Company's existing principal business includes electronic information manufacturing business, automobile business, energy, chemical and high-tech equipment business, high-tech engineering business, logistics business, health care business, air conditioning facilities equipment business, financial business, real estate development business and the emerging business, including in the United States, Europe, North America and Australia, and in business network and the industry's major companies and regions. In addition, the Company's business continues to take the lead in the industry. In addition, the Company's automobile, energy and chemical equipment and high-tech engineering business are in the leading position in the industry. The efficient implementation of business diversification and globalized development effectively enhances the overall competitiveness of the Company's global market in the recent years.

A Standardised and Effective Corporate Governance System

The Company has developed a set of effective governance model covering business philosophy, governance structure and management mechanism. A standardized and effective corporate governance structure is the institutional safeguard of the Company's sustainable and healthy development. Since 2010, the Company has launched the strategic grade campaign for building an emerging leadership sustainable and healthy development of CIMC. According to the general annual main direction for the management, the Company has established a hierarchical management model covering the entire corporate structure, special committee and the Board of Directors, special management structure, and introduced the lean management concept. As a result, the Company has established an innovative and forward-looking management system, ensuring sustainable and healthy development of the business.

CHAPTER IV Operation Discussion and Analysis Prepared in Accordance with the Domestic Securities Regulatory Rules

II. OPERATION DISCUSSION AND ANALYSIS

(I) Overview

For the details of the Group's financial performance during the Reporting Period, please refer to II. Review of Principal Business Performance during the Reporting Period under Chapter III Review of the Board in this Report.

(II) Analysis of Principal Businesses

1. Year-on-year Changes exceeding 30% in Key Financial Data

Unit: RMB million and

	As at the end of the Reporting Period (30 June 2017) (unaudited)	As at the end of the Reporting Period (31 December 2016) (audited)	Change (%)	Reason for change
Dividend payable	253,412	16,746	1,413.27%	Mainly due to the increase of dividend payable for dividend holders based on the dividend declared in the Reporting Period.
Other current liabilities	2,612,280	1,687,762	54.78%	Mainly due to the increase of the commercial accounts payable in the Reporting Period.

	The Reporting Period (January to June 2017) (unaudited)	Same period in 2016 (January to June 2016) (audited)	Change (%)	Reason for change
Financial expense	594,251	304,944	94.87%	Mainly due to the increase of interest expense and exchange loss in the Reporting Period.
Administrative expense	234,437	1,267,501	(81.50%)	Mainly due to the large decrease in the same period of the administrative expense of the main subsidiaries in the Reporting Period, especially the SOE subsidiary CIMC Enric in the same period.
(Loss)/profit from change in fair value	(32,626)	137,104	(123.80%)	Mainly due to the change in fair value of derivative financial instruments in the Reporting Period.
Income tax expense	(10,628)	(87,328)	87.83%	Mainly due to the decrease of the income tax expense from the subsidiaries in the same period.

32 CHAPTER IV Operation Discussion and Analysis Prepared in Accordance with the Domestic Securities Regulatory Rules

	The Reporting Period (January to June 2017) (unaudited)	Same period in 2016 (January to June 2016) (audited)	Change (%)	Reason for change
Carriage received from operating companies	21,903	241,771	(90.94%)	Mainly due to the decrease in the amount of carriage received from operating companies
Carriage received from operating companies	142,020	791,687	(82.06%)	Mainly due to the decrease in the amount of carriage received from operating companies
Net carriage received from operating companies	5,000	764,577	(99.35%)	Mainly due to the decrease in the amount of carriage received from operating companies
Carriage received from capital contribution	33,776	1,542,157	(97.81%)	Mainly due to the decrease in the amount of carriage received from capital contribution, including CIMC Vehicle (Group) and Shenhen CIMC Electric Container and Logistic Technology Co., Ltd. in the amount of carriage received from capital contribution

The decrease in the amount of carriage received from operating companies is mainly due to the decrease in the amount of carriage received from operating companies. The decrease is attributable to the decrease in the amount of carriage received from operating companies.

The decrease in the amount of carriage received from capital contribution is mainly due to the decrease in the amount of carriage received from capital contribution.

44 Chapter V Management Discussion and Analysis Prepared in Accordance with Hong Kong Securities Rules

NON-OPERATING INCOME

During the Reporting Period, the Group's non-operating income amounted to RMB84.343 million (amounted in 2016: RMB167.289 million), decreasing as follows:

Chapter V Management Discussion and Analysis Prepared in Accordance with Hong Kong Securities Rules

BANK LOANS AND OTHER BORROWINGS

As at 30 June 2017, the Group's short-term borrowings, long-term borrowings, debentures payable and other liabilities (including financial lease) in aggregate amounted to RMB57,072.710 million (31 December 2016: RMB55,932.185 million). Details are set out in the IV. 25, IV. 36, IV. 37, IV. 38 and IV. 39 of Chapter IX 2017 Interim Financial Report (Unaudited) in this Report.

Unit: RMB million and

	As at 30 June 2017 (unaudited)	As at 31 December 2016 (audited)
Short-term borrowings	17,945,748	15,729,787
Non-current borrowings denominated in foreign currencies	4,891,414	3,525,710
Long-term borrowings	23,665,089	27,023,222
Debentures payable	7,986,500	7,986,500
Other liabilities (including financial lease)	2,583,959	1,666,966
Total	57,072,710	55,932,185

In the first half of 2017, the net bank loan and other borrowings of the Group amounted to RMB2,798.256 million (as compared to RMB5,324.877 million) in 2016, representing a decrease of 47.45%. The Group's bank borrowings are mainly denominated in U.S. dollars, which are in line with the main commercial and financial activities. As at 30 June 2017, the Group's bank borrowings included fixed-rate borrowings of approximately RMB11,035.941 million (31 December 2016: RMB8,123.960 million), representing an increase of 35.84% as compared to the end of the period, which is mainly due to the financing arrangements made by the Group through the bank capital markets; floating-rate borrowings of RMB35,466.310 million (31 December 2016: RMB38,154.759 million), representing a decrease of 7.05% as compared to the end of the period. As at the end of the Reporting Period, the long-term borrowings are mainly denominated in foreign currencies. For details, please refer to the IV. 38 and XIV. 3 of Chapter IX 2017 Interim Financial Report (Unaudited) in this Report.

46 Chapter V Management Discussion and Analysis Prepared in Accordance with Hong Kong Securities Rules

CAPITAL STRUCTURE

The Group's capital structure reflects its financial position and liabilities. As of 30 June 2017, the Group's financial position and liabilities are as follows: (31 December 2016: RMB39,871.883 million) in aggregate, the total liabilities are RMB89,626.971 million (31 December 2016: RMB85,479.956 million) and the total assets are RMB129,498.854 million (31 December 2016: RMB124,614.748 million). The Group is committed to maintaining an appropriate balance of equity and debt, in order to maintain an effective capital structure and to provide maximum financial flexibility.

At the end of the Reporting Period, the Group's gearing ratio is 69.21% (31 December 2016: 68.60%), which slightly increased by 0.61% as compared with the end of the previous year (Calculation of the gearing ratio: based on the Group's total debt divided by the total equity).

FOREIGN EXCHANGE RISK AND RELEVANT HEDGE

The major concern of the Group is the exchange rate of the U.S. dollar, which is the main currency used in RMB. As the exchange rate of RMB is affected by domestic and international economic and political factors, and the demand and supply of RMB, the Group is exposed to the risk of foreign exchange fluctuations from the exchange rate fluctuations in RMB against the currencies, which may affect the Group's operating results and financial condition. The management of the Group has implemented foreign exchange risk management measures to reduce the foreign exchange risk. The Group has entered into foreign exchange hedging contracts held by the Group during the Reporting Period, as disclosed in IV. 2 and IV. 26 of the 2017 Interim Financial Report (Undated) in this Report.

INTEREST RATE RISK

The Group is exposed to the market interest rate change risk relating to its interest-bearing bank loans and borrowings. To minimize the impact of interest rate risk, the Group entered into interest rate contracts with the relevant bank. For details, please refer to IV. 2 and IV. 26 of the 2017 Interim Financial Report (Undated) in this Report.

CREDIT RISK

The Group's credit risk is mainly attributable to cash and bank and, in addition, receivable, derivative financial instruments entered into for hedging purposes, etc. The Group has established credit risk management and reporting systems. For details, please refer to XIV. 1 of the 2017 Interim Financial Report (Undated) in this Report.

PLEDGE OF ASSETS

As at 30 June 2017, the pledged assets of the Group totalled RMB8,902.078 million (31 December 2016: RMB9,756.883 million), representing a decrease of 8.76% as compared with the end of the previous year. For details, please refer to IV. 24 of the 2017 Interim Financial Report (Undated) in this Report.

CAPITAL COMMITMENTS

As at 30 June 2017, the Group had capital commitments of RMB494.514 million (31 December 2016: RMB417.786 million), representing an increase of 18.37% as compared with the end of the previous year, which is mainly related to the entered into the related contracts. For details, please refer to XI. 1. (1) of the 2017 Interim Financial Report (Undated) in this Report.

Chapter V Management Discussion and Analysis Prepared in Accordance with Hong Kong Securities Rules

CONTINGENT LIABILITY

As at 30 June 2017, the Group had contingent liabilities of a total amount of RMB59.028 million (31 December 2016: RMB83.248 million), decreasing a decrease of 29.09% as compared with the end of the reporting period, as detailed in the notes to the financial statements. For further details, please refer to the X.1 of Chapter IX 2017 Interim Financial Report (Undated) in this Report.

SIGNIFICANT INVESTMENTS AND MAJOR ACQUISITIONS AND DISPOSALS RELATING TO SUBSIDIARIES AND ASSOCIATED COMPANIES

During the Reporting Period, the Group did not make any significant investments and had no major acquisitions and disposals relating to subsidiaries and associated companies. For further details on the major disposals of the Group, please refer to the VI.1 of Chapter IX 2017 Interim Financial Report (Undated) in this Report.

FUTURE PLANS FOR SIGNIFICANT INVESTMENTS AND EXPECTED SOURCES OF FUNDING

Future investments plan of the principal business of the Group in the second half of the year, please refer to 3. Overall Operation Targets and Initiatives of Main Business Segment of III. Future Development and Outlook of Chapter III Report of the Board in this Report. The raising and capital expenditure of the Group are mainly financed by internal funds and external financing. The Group will take a prudent attitude to enhance its raising cash flow. The Group has sufficient cash and financing resources for capital expenditure and working capital.

CAPITAL EXPENDITURE AND FINANCING PLAN

Based on change in the economic situation and raising environment, as well as the development of the Group's strategic goals and business development, the expected capital expenditure of the Group in 2017 is a total amount of RMB7,900 million, among which a total amount of RMB500 million is allocated to the first half of the year, which is mainly used for acquisition of fixed assets, intangible assets and long-term investments. Various financing arrangements will be considered by the Group in the second half of the year.

On 31 March 2016, a convened and held a shareholders' general meeting, the Company issued a non-public offering of the A shares eligible in the amount of RMB6,000 million (the Non-public Offering of A Shares). On 17 January 2017, a certain measure will be implemented, the Company submitted an application to the CSRC for the renewal of the registration of the documents of the Non-public Offering of A Shares. On 9 June 2017, in accordance with the implementation of the plan, the convening and a total amount of the annual general meeting of 2016 and the first 2017 class meeting of A Shares and the first 2017 class meeting of H Shares, the Company issued a notice of the Non-public Offering of A Shares and ended the validity period of the listing of the shares issued at the shareholders' general meeting as well as the validity period of the mandate of the Board. For details, please refer to II.1 and Listing of Securities of Chapter VII Change in Share Capital and Information on Substantial Shareholders in this Report. As at the end of the Reporting Period, the Non-public Offering of A Shares is still pending.

XII. IMPLEMENTATION OF THE COMPANY'S SHARE OPTION INCENTIVE SCHEME, EMPLOYEE STOCK OWNERSHIP SCHEME OR OTHER EMPLOYEE INCENTIVE MEASURES

1. Summary of Share Option Incentive Scheme

(1) A Share(s) Share Option Incentive Scheme of the Company

In order to establish and improve the incentive-constraint mechanism, and effectively combine the interests of the Shareholders, the Company and its employees, the A Share(s) Share Option Incentive Scheme was conceived and approved at the extraordinary general meeting of the Company on 17 September 2010. According to the scheme, the first tranche of 54,000,000 shares in (the 'First Tranche of Share Option') was granted on 26 January 2011 and the second tranche of 6,000,000 shares in (the 'Second Tranche of Share Option') was granted on 17 November 2011.

At a 12 March 2015, in the conference and a special extraordinary meeting of the shareholders of the Board in 2015, the first tranche of the Second Tranche of Share Option has met the vesting conditions and all the vesting shares from 2 June 2015 to 27 September 2020 in the total vesting amounting 39,660,000 shares. At a 9 October 2015, in the conference and a special extraordinary meeting of the shareholders of the Board in 2015, the second tranche of the Second Tranche of Share Option has met the vesting conditions and all the vesting shares from 24 October 2015 to 27 September 2020 in the total vesting amounting 4,132,500 shares. At a 20 July 2017, in the conference and a special extraordinary meeting of the shareholders of the Board in 2017 and the implementation of the annual dividend distribution plan of the Company for 2016 on 20 July 2017, the adjusted exercise price of the First and Second Tranche of Share Option is RMB10.49 and RMB16.02, respectively.

During the Reporting Period, the total vesting amount of A Share(s) Share Option Incentive Scheme amounted 1,775,800 shares, increasing 3.03% of the total (adjusted), of which, including 1,730,800 shares of the second tranche of the First Tranche of Share Option, and including 45,000 shares of the second tranche of the Second Tranche of Share Option. The implementation of A Share(s) Share Option Incentive Scheme has no material impact on the Company's financial conditions and the performance of the Reporting Period and in the future.

(2) Share option incentive scheme of the subsidiary CIMC Enric

CIMC Enric adopted and approved a share incentive (2006 Share Option Scheme) at the extraordinary general meeting held on 12 July 2006, through which CIMC Enric granted a total of 120,370,000 shares in a share pool and benefited certain employees, directors and eligible persons of the subsidiary in CIMC Enric in November 2009, October 2011 and June 2014. The 2006 Share Option Scheme expired in 2016. For details, please refer to the related announcements of CIMC Enric published on the website of the Hong Kong Stock Exchange, the related announcements released on the website of the Company, the Hong Kong Stock Exchange and the Company's annual general meeting of the Company in recent years.

On 20 March 2016, the annual general meeting of CIMC Enric adopted and approved a new share incentive (2016 Share Option Scheme) and terminated the 2006 Share Option Scheme. Since adoption of the 2016 Share Option Scheme, no shares have been granted by CIMC Enric under the 2016 Share Option Scheme.

(3) Implementation of the equity trust scheme of the subsidiary CIMC Vehicle (Group)

The CIMC Vehicle (Group) Co., Ltd. Equity Trust Plan (Draft) was adopted and approved at the general meeting of the Company held on 17 October 2007, and thereafter, the then management entrusted the vehicle business of the Group and the key personnel of CIMC Vehicle (Group) held 20% equity interest in CIMC Vehicle (Group) by a capital increase of RMB220,700,000 through the CIMC Vehicle (Group) Co., Ltd. Equity Trust Plan (hereinafter referred to as "CIMC Vehicle (Group) Equity Trust Plan") through Shenzhen International Trust & Investment Co., Ltd. (深圳國際信託投資有限責任公司) (now renamed China Resource SZITIC Trust Co., Ltd.) as trustee. On 30 December 2015, CIMC Vehicle (Group) completed the capital increase and the CR Trust CIMC Vehicle (Group) Equity Trust Plan given its effectiveness. As at 31 March 2016, the Company decided and approved the Resolution regarding the Amendment of CIMC Vehicle (Group) Co., Ltd. Equity Trust Plan (Draft) (《關於修改〈中集車輛集團有限公司股權信託計劃(草案)〉的議案》) at the 2015 annual general meeting. Finally, after the relevant announcement was made on the website of the Company, the Hong Kong Stock Exchange and the Company announced the relevant resolutions of the Company in recent years. The CR Trust CIMC Vehicle (Group) Equity Trust Plan held 15.83% equity interest in CIMC Vehicle (Group) at the end of the Reporting Period.

2. Implementation of the A Share(s) Share Option Incentive Scheme of the Company and its Influence

Scope of acquisition of the Reporting Period	The first tranche of 54,000,000 shares (among which 4,107,500 shares were cancelled) were granted to 175 senior management and key technical personnel of the Company; the second tranche of 6,000,000 shares in (among which 578,125 shares were cancelled) were granted to 38 key technical personnel and middle management of the Company.
Total shares granted during the Reporting Period (shares)	0
Total shares exercised during the Reporting Period (shares)	1,775,800
Total shares cancelled during the Reporting Period (shares)	0
Total shares awarded during the Reporting Period (shares)	0
Total shares granted by awarding at the end of the Reporting Period in a cumulative basis (shares)	23,453,740
Total shares granted and exercised at the end of the Reporting Period in a cumulative basis (shares)	31,860,635
Adjustment granted and exercised during the Reporting Period and the granted and exercised amount of the adjustment	The initial exercise price of the first tranche was RMB12.39/ share which was adjusted to RMB10.49/ share after implementation of the dividend distribution plan for the year 2010-2016.
	The initial exercise price of the second tranche was RMB17.57/ share which was adjusted to RMB16.02/ share after implementation of the dividend distribution plan for the year 2011-2016.

(2) Irregular External Guarantees

Applicable, N/A

3. OTHER MATERIAL CONTRACTS

Applicable, N/A

XVI.SOCIAL RESPONSIBILITY

1. Performance of Precise Poverty-alleviation Social Responsibility

Applicable, N/A

During the Reporting period, the Company did not engage in any precise poverty-alleviation activities and had no full-time staff for precise poverty alleviation.

2. Performance of Other Social Responsibilities

The Company published the 2016 Social Responsibility Report and the 2016 Environmental, Social and Governance Report in Chinafob.com.cn, the Company's website (www.cimc.com) and the Hong Kong Stock Exchange website (www.hkexnews.hk) on 28 March 2017 and 30 June 2017 respectively.

3. Material Environmental Protection Events

When the listed company and its subsidiaries are not the listed financial institution and change published by the environmental protection website

Yes, N/A

Chapter VI Significant Events 65

The subsidiary of the Group which exceeded a key environmental changing indicator in the environmental record in China are as follows:

Name of subsidiary	Name of major and specific pollutants	Emission method	Number of		Emission concentration	Pollutant emission standards in effect	Total emission	Approved	
			emission outlets	Distribution of emission outlets				total emission	Excessive emission
Shanghai CIMC Logistic Equipment Manufacturing Co., Ltd.	Sulfur dioxide, methylene chloride and formaldehyde	Concentrated high-aldehyde emission	19	Distribution in the plant, the main and the men line	Emitted	Permitted standards	Complied	Nil	
Nanjing CIMC Shanda Chemical Co., Ltd. and Nanjing CIMC Special Equipment Manufacturing Co., Ltd.	Particulate matter, methylene chloride, formaldehyde, COD, SS and ammonia nitrogen	Influent and effluent	14	Distribution in the plant, the main and the men line	Emitted	In effect	Complied	Nil	
Shanghai CIMC Baell Industrial Co., Ltd.	Non-methane hydrocarbon	Organic (chimney) emission	4	Distribution in the plant, the main and the men line	Emitted	DB31/933-2015	Complied	Nil	
Shanghai CIMC Yanghan Logistic Equipment Co., Ltd.	Ammonia nitrogen, PH, aldehyde, BOD, COD, SS and non-methane hydrocarbon	Influent and effluent	6	General	Emitted	Complied	Complied	Nil	
Shenzhen CIMC Special Vehicle Co., Ltd.	Particulate matter, sulfur dioxide, methylene chloride and formaldehyde	High-aldehyde emission	10	Centralized distribution	Emitted	DB44/27-2001	Complied	Nil	
Nanjing CIMC Tank Equipment Co., Ltd.	Chemical ammonia nitrogen, particulate matter, methylene chloride and non-methane hydrocarbon	Influent and effluent	6	General	Emitted	Complied	Complied	Nil	

66 Chapter VI Significant Events

Construction and operation of pollution prevention and control facilities:

Name of subsidiary	Construction and operation of pollution prevention and control facilities
Shenzhen CIMC Logistic Equipment Manufacturing Co., Ltd.	<p>I. Effluent treatment facilities: The company has 5 effluent treatment facilities in Phase II and 6 effluent treatment facilities and 3 effluent treatment facilities in Phase III.</p> <p>II. The company has 1 industrial wastewater treatment capacity of 450m³/d. All the industrial wastewater is treated in the kitchen effluent.</p> <p>III. Domestic sewage is discharged in the municipal sewage network and finally treated in the Shanghai Sewage Treatment Plant.</p>
Nanjing CIMC Shunda Container Co., Ltd. and Nanjing CIMC Special Transport Equipment Manufacturing Co., Ltd.	<p>I. Effluent treatment facilities: The company has completed and is carrying out the construction of the effluent treatment plant. The effluent treatment plant is designed to treat 600m³/d of effluent. The effluent treatment plant is designed to treat 600m³/d of effluent. The effluent treatment plant is designed to treat 600m³/d of effluent. The effluent treatment plant is designed to treat 600m³/d of effluent.</p> <p>II. Air treatment facilities: The company has completed and is carrying out the construction of the air treatment plant. The air treatment plant is designed to treat 300m³/d of air. The air treatment plant is designed to treat 300m³/d of air. The air treatment plant is designed to treat 300m³/d of air. The air treatment plant is designed to treat 300m³/d of air.</p>
Shanghai CIMC Baell Industrial Co., Ltd.	<p>I. The company has 4 effluent treatment facilities with an aggregate capacity of 308,000m³/h for industrial wastewater. The effluent treatment facilities are designed to treat 308,000m³/h of industrial wastewater. The effluent treatment facilities are designed to treat 308,000m³/h of industrial wastewater.</p> <p>II. The company has 1 industrial wastewater treatment capacity of 6/d and 140/d of domestic wastewater treatment capacity. The industrial wastewater is treated by the biological treatment + UASB + MBR technology. All the industrial wastewater is treated in the kitchen effluent.</p> <p>III. The company has 1 effluent treatment facility with a capacity of 280/d. The domestic sewage is discharged in the municipal sewage network and finally treated in the Shanghai Sewage Treatment Plant.</p>

Chapter VI Significant Events 67

Name of subsidiary	Construction and operation of pollution prevention and control facilities
Shanghai CIMC Yangshan Logistic Equipment Co., Ltd.	<p>I. The company has 11 sets of 4000-ton container handling facilities.</p> <p>II. The company has 1 industrial water treatment plant with a capacity of 100m³/d. The industrial water treatment plant is equipped with aeration, flocculation, sedimentation, and filtration. The industrial water treatment plant is equipped with aeration, flocculation, sedimentation, and filtration. The industrial water treatment plant is equipped with aeration, flocculation, sedimentation, and filtration.</p> <p>III. The company has 1 industrial water treatment plant with a capacity of 100m³/d. The industrial water treatment plant is equipped with aeration, flocculation, sedimentation, and filtration. The industrial water treatment plant is equipped with aeration, flocculation, sedimentation, and filtration.</p>
Shanghai CIMC Special Vehicle Co., Ltd.	<p>I. The company has 5 sets of 4000-ton container handling facilities with high-altitude emission.</p> <p>II. The company has 1 set of 4000-ton container handling facilities with high-altitude emission.</p> <p>III. The company has 2 sets of 4000-ton container handling facilities with high-altitude emission.</p> <p>IV. The company has 2 sets of 4000-ton container handling facilities with high-altitude emission.</p>
Nanjing CIMC Tank Equipment Co., Ltd.	<p>I. The company has 1 set of 4000-ton container handling facilities with high-altitude emission.</p> <p>II. The company has 1 set of 4000-ton container handling facilities with high-altitude emission.</p> <p>III. The company has 2 sets of 4000-ton container handling facilities with high-altitude emission.</p>

I. GENERAL INFORMATION (CONTINUED)

Please refer to Note VI for details of subsidiaries included in the consolidated financial statements and all other subsidiaries included in the consolidated financial statements. Please refer to Note V.2 for details of subsidiaries excluded from the consolidated financial statements.

This financial statement has been approved by the Company's Board of Directors on 28 August 2017.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

The Group makes specific accounting policies and accounting estimates according to characteristic financial business, which include provisions for bad debts receivable (Note II.10), deferred income (Note II.11), the choice of determining impairment loss on financial assets (Note II.20), derivative financial assets and financial liabilities (Note II.14 and 17), measurement of provisions (Note II.21) and deferred tax (Note II.23), etc.

Key judgments applied for critical accounting policies by the Group are disclosed in Note II.34.

1. Basis of preparation

The financial statement is prepared in accordance with the Basic Standard and specific standards of the Accounting Standard for Business Enterprises issued by the Ministry of Finance on 15 February 2006, the

Notes to the Financial Statements

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4. Recording currency

Financial currency is determined by the Company and is recorded in the balance sheet in which major income and costs are denominated and settled.

The financial currency of the Company and is recorded in PRC as Renminbi. Hong Kong and the overseas subsidiaries use local currencies as their financial currency. Foreign currency is defined as currency other than financial currency.

Financial statements of the Company are prepared in Renminbi. Foreign subsidiaries using currencies other than Renminbi as their financial currency, the Company translates the financial statements of the subsidiaries in Renminbi (see Note II.8).

5. Business combinations

(1) Business combinations involving enterprises under common control

A business combination in line with the definition of a business combination in which all of the combining enterprises are ultimately controlled by the same party before and after the business combination, and have no change of control. The assets and liabilities obtained are measured at the carrying amount as recorded by the enterprises being combined at the business combination date. The difference between the carrying amount of the net assets obtained and the carrying amount of the net identifiable intangible assets (including identifiable intangible assets) is adjusted to capital reserve in the capital account. If the balance of the capital reserve is insufficient, an excess is adjusted to retained earnings. An exception is that the business combination shall be recognized in full for the consolidated financial statements. The business combination date is the date on which the combining enterprises effectively obtain control of the combining enterprises.

(2) Business combinations involving enterprises not under common control

A business combination in line with the definition of a business combination in which all of the combining enterprises are not ultimately controlled by the same party before and after the business combination. Where 1) the aggregate of the fair value of the identifiable intangible assets (including the identifiable intangible assets held by the enterprises) and liabilities incurred is greater than the fair value of the identifiable intangible assets, the difference is recognized as goodwill (see Note II.18). When 1) is less than 2), the difference is recognized in full for the consolidated financial statements. The cost of the intangible assets is debited to the cost of the identifiable intangible assets. The identifiable intangible assets included in the initial recognition amount of the intangible assets. Other identifiable intangible assets acquired from the business combination are recognized as an expense in the period in which they are incurred. The difference between the fair value and the carrying amount of the net assets obtained is recognized in full. The identifiable intangible assets, liabilities and contingent liabilities, if any, are recognized by the Group as identifiable intangible assets. The identifiable intangible assets are those which the identifiable intangible assets effectively obtain control of the identifiable intangible assets.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

6. Preparation of consolidated financial statements

The consolidated financial statements are prepared on a consolidated basis and the consolidated financial statements comprise the Company and its subsidiaries. Consolidation means the group has a high degree of influence in the investee entities, and could gain or lose high income. The investee entities are all those entities whose ability to affect the group's financial performance is significant. The financial position, financial performance and cash flows of subsidiaries are included in the consolidated financial statements from the date of acquisition to the date of disposal.

When a subsidiary has acquired during the reporting period, although a business combination in line with the independent principle, the financial statements of the subsidiary are included in the consolidated financial statements as if the combination had occurred at the date of the latest reporting date. The opening balance and the comparative figures of the consolidated financial statements are also adjusted. In the preparation of the consolidated financial statements, the subsidiary's assets and liabilities are measured at carrying amount and included in the consolidated balance sheet, and financial performance is included in the consolidated income statement, respectively, from the date of the latest acquisition of the Company to the date of disposal of the subsidiary.

When a subsidiary has acquired during the reporting period, although a business combination in line with the independent principle, the identifiable assets and liabilities of the acquired subsidiary are included in the consolidated financial statements from the date of acquisition to the date of disposal of the identifiable assets and liabilities of the acquired subsidiary.

For a business combination in line with the independent principle and achieved in stages, the Group measures the fair value of the acquired subsidiary in the acquisition date. The difference between the fair value and the carrying amount is recognized as income from the acquisition; the amount recognized in the consolidated income statement relating to the fair value of the acquired subsidiary is declared as income from the acquisition.

When the Company acquires a minority interest in a subsidiary, the difference between the amount by which the minority interest is adjusted and the amount of the non-controlling interest received is adjusted to the capital reserve (capital surplus) in the consolidated balance sheet. If the credit balance of capital reserve (capital surplus) is insufficient, an expense is adjusted to retained earnings.

When the Group's consolidated financial statements are the final financial statements, the Group recognizes the assets, liabilities, minority interest and the related items in the 'equity' in relation to the subsidiary. The remaining equity in the income statement is measured as the fair value of the shareholding. An gain or loss is recognized as income from the acquisition of the shareholding.

Notes to the Financial Statements

For the period from 1 January and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)
 (English Text is in Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

6. Preparation of consolidated financial statements (Continued)

When the amount of the consolidated attributable minority shareholders' share of the minority shareholders' share of the ending balance of the minority shareholders' share of the consolidated, the minority shareholders' share of the ending balance of the consolidated is all calculated again in the minority shareholders' share.

When the accounting and accounting policies of the consolidated are different from those of the Company, the Company makes necessary adjustments to the financial statements of the consolidated based on the Company's accounting and accounting policies.

All significant inter-company balances, transactions and unrealized profits are eliminated in the consolidated financial statements. The inter-company profits and the inter-company losses are eliminated from the consolidated statements of comprehensive income and the consolidated statements of cash flows. The consolidated statements of comprehensive income and the consolidated statements of cash flows are prepared on the basis of the consolidated financial statements of the Company and the consolidated financial statements of the Company's subsidiaries. The unrealized profits and losses of the Company and the consolidated financial statements are eliminated again in the consolidated financial statements of the Company and the consolidated financial statements of the Company's subsidiaries. The unrealized profits and losses of the Company and the consolidated financial statements are eliminated again in the consolidated financial statements of the Company and the consolidated financial statements of the Company's subsidiaries. The unrealized profits and losses of the Company and the consolidated financial statements are eliminated again in the consolidated financial statements of the Company and the consolidated financial statements of the Company's subsidiaries. The unrealized profits and losses of the Company and the consolidated financial statements are eliminated again in the consolidated financial statements of the Company and the consolidated financial statements of the Company's subsidiaries.

The difference in recognizing a same transaction between the accounting books of the Group and of the Company is adjusted in the accounting books of the Group.

7. Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits that can be readily drawn on demand, and short-term and highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of change in value.

Notes to the Financial Statements

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

8. Foreign currency transactions and translation of financial statements denominated in foreign currency

When the Group receives capital in foreign currencies from investors, the capital is translated into the functional currency at the exchange rate at the date of receipt. Other foreign currency transactions are, initially recognized, translated into the functional currency at the applicable rate at the date of the transaction.

All exchange rates are determined by the People's Bank of China. All exchange rates are determined under a market and daily method, and small exchange rate fluctuations are ignored.

Monetary items denominated in foreign currencies are translated into the functional currency at the exchange rate at the balance sheet date. The exchange rate difference, except for the arising from the financial and in the specific foreign currency borrowing from the bank, is recognized in profit or loss. Non-monetary items denominated in foreign currencies are measured at historical cost translated into the functional currency using the foreign exchange rate at the transaction date. Non-monetary items denominated in foreign currencies are measured at fair value using the foreign exchange rate at the date the fair value is determined; the exchange rate difference is recognized in profit or loss, except for the difference arising from the translation of available-for-sale financial assets, which are recognized in other comprehensive income. The effective exchange rate changes are recognized in the cash flow statement.

The assets and liabilities of foreign exchange are translated into the functional currency at the exchange rate at the balance sheet date. The equity items, including retained earnings, are translated into the functional currency at the exchange rate at the transaction date. The income and expense of foreign exchange are translated into the functional currency at the applicable rate at the transaction date. The exchange rate difference is recognized in other comprehensive income. Under the fair value of foreign exchange, the cumulative amount of the exchange rate difference is recognized in equity, which is eliminated when the foreign exchange is realized in profit or loss. The cash flow of foreign exchange is translated into the functional currency at the exchange rate at the date of the cash flow. The effective exchange rate changes are recognized in the cash flow statement.

Notes to the Financial Statements

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments

Financial instruments include cash and bank and on hand, financial assets at fair value through profit or loss, receivable, available-for-sale financial assets, instruments in equity, derivative financial instruments, instruments at amortized cost, and debt payable.

(1) Financial Assets

(a)

Financial assets are classified in the following categories at initial recognition: financial assets at fair value through profit or loss, receivable, available-for-sale financial assets and held-to-maturity investments. The classification of financial assets depends on the Group's intention and ability to hold the financial assets.

a. Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for sale, derivatives held for trading and financial assets held for trading.

b. Receivable

Receivable are non-derivative financial assets that have fixed or determinable amounts and are not quoted in an active market.

c. Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are held for trading or are classified in any of the following categories. They are included in non-current assets unless they are held for trading. Available-for-sale financial assets are measured at fair value.

(b)

Financial assets are recognized at fair value in the balance sheet when the Group becomes a party to the contractual provisions of the financial instrument. In the case of financial assets at fair value through profit or loss, the related transaction is recorded at the time of acquisition and recognized in profit or loss when the cash is paid. For the financial assets, an active market exists for the financial assets, the financial assets are included in the initial recognition amount.

Financial assets at fair value through profit or loss are measured at fair value. Instruments in equity in instruments are measured at cost when the dividend has not been declared and the fair value cannot be reliably measured. Receivable are measured at amortized cost using the effective interest method.

Notes to the Financial Statements

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(1) Financial Assets (Continued)

(i) Fair value measurement (Continued)

Gain or loss arising from change in the fair value of financial assets or liabilities held through financial instruments is recognized in profit or loss. In the case of cash dividends received during the period in which such financial assets are held, a full amount of the gain or loss arising from disposal of the assets are recognized in profit or loss for the concerned period.

Accumulated fair value adjustments of available-for-sale financial assets are recognized in other comprehensive income and exchange gain and loss of foreign currency financial assets. When available-for-sale financial assets are disposed, the accumulated fair value adjustments are recognized in other comprehensive income included in the income statement. In the case of available-for-sale equity investments, the effective interest method and cash dividends on available-for-sale equity investments when the group's right to receive a dividend is established are recognized in the income statement as a part of the income.

(ii) Impairment of financial assets

The Group assesses the carrying amount of financial assets whether there has been a fair value loss through financial instruments at each balance sheet date. If the objective evidence has a financial asset is impaired, the Group determine the amount of impairment loss.

Objective evidence indicating a financial asset is impaired includes: (a) all have been defaulted on the initial recognition of the financial asset and (b) influence the financial asset's estimated future cash flows which can be reliably measured by the Group.

Evidence of held-to-maturity investments impairment includes a significant prolonged decline in the fair value of an investment in an equity instrument below its cost. The Group assesses all available-for-sale financial assets on an individual basis at each balance sheet date. Impairment loss should be recognized if the fair value of an equity instrument has fallen 50% (50% inclusive) of its initial investment cost or in the case where the fair value has been less than the initial investment cost for more than one year (excluding dividends). The Group will consider the relevant factors, such as the liquidity, to determine the impairment loss should be recognized for the equity instrument if the decline in the fair value of an equity instrument is more than 20% (20% inclusive) below the 50% of its initial investment cost. The initial investment cost of held-to-maturity investments is calculated using the effective interest method.

When an impairment loss on a financial asset carried at amortized cost has occurred, the amount of

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(1) Financial Assets (Continued)

(i) Available-for-sale financial assets (continued)

When an available-for-sale financial asset is impaired, the cumulative impairment from decline in fair value has been recognized directly in equity if it is classified as available-for-sale. If, after an impairment loss has been recognized on an available-for-sale debt instrument, the fair value of the debt instrument increases in a subsequent period and the increase exceeds the impairment loss, the increase shall be recognized in profit or loss.

(All amounts in RMB'000 unless otherwise stated)

(English Text has priority in Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(2) Financial liabilities

Financial liabilities are classified in the following categories at initial recognition: financial liabilities at fair value through profit or loss and other financial liabilities.

Payables, including accounts payable and other payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

Borrowing and debenture payable are recognized initially at fair value, net of transaction costs incurred and subsequently measured at amortized cost using the effective interest method.

Financial guarantee contracts issued by the Group are recognized as liabilities if a payment will be made to reimburse the holder if it incurs a loss because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Subsequently, the liabilities are measured at the higher of the initial fair value less cumulative impairment recognized in the statement of income, and the amount of incurred but not yet recognized loss (see Note II.21).

Other financial liabilities with a maturity of less than one year are classified as current liabilities. Other financial liabilities with a maturity of more than one year are classified as non-current liabilities. Other classified as non-current liabilities.

A financial liability is derecognized when the contractual obligations are discharged or expired. The difference between the carrying amount of the financial liability and the derecognized amount of the financial liability and the consideration paid is recognized in profit or loss.

(3) Determination of fair value

The fair value of a financial instrument has been determined in an active market where quoted prices in the active market. The fair value of a financial instrument has been determined in an active market where quoted prices are not available, the fair value is determined using a valuation technique that uses observable market data and the information available to market participants. When a valuation technique is used to determine the fair value of a financial liability, the valuation technique should be based on the assumptions that market participants would use to determine the fair value. Unobservable inputs should not be used when it is possible to obtain observable inputs.

Notes to the Financial Statements

103

For the period ended from 1 January and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)
 (English Text and Chinese Text are for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(4) Equity instrument

An equity instrument is a contract that gives the holder the right to receive a share of the residual assets of the Group after deducting all liabilities in the Group.

The residual claim in an instrument is recognized as a liability when the instrument contains contractual obligations that are financial in nature.

The claim is recognized from the issuance of the instrument when the instrument is a contract that obligates the issuer to deliver cash or another financial asset to the holder. When the instrument is a contract that obligates the issuer to deliver a variable number of shares, the instrument is not recognized as a liability.

Contingent and derivative liabilities of the Group are classified as equity instruments when they are not recognized from the issuer's perspective.

10. Receivables

Receivable is defined as a claim that is enforceable and the receivable. Accounts receivable arising from sales of goods and services are initially recognized at fair value of the contractual amount from the best estimate of the receivable.

Receivable are classified as individual and non-individual receivable.

When an individual receivable is recognized, an impairment loss is recognized if the carrying amount of the receivable is calculated at the end of the reporting period. The impairment loss is calculated as the difference between the carrying amount and the present value of the expected cash flows (excluding the cash flows that have not been incurred) discounted at the original effective interest rate. All impairment losses are recognized in profit or loss.

The amount of impairment loss on receivable is calculated as the difference between the carrying amount and the present value of the expected cash flows (including the carrying amount, based on historical experience, and adjusted by the best estimate of the expected credit loss).

If, after an impairment loss has been recognized on receivable, there is objective evidence of a decrease in the fair value of the financial asset which can be related to the impairment loss, the impairment loss is reversed. A reversal of an impairment loss will not increase the carrying amount exceeding the carrying amount that would have been determined had no impairment loss been recognized in the past.

Notes to the Financial Statements

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

10. Receivables (Continued)

(1) Receivables that are individually significant and impairment provided on an individual basis:

Certain individually significant receivables have been individually identified as individually significant and impairment provided on an individual basis.

Individually significant receivables are the receivables with the individual amount less than RMB10 million (inclusive) accounting for 5% or more of the total receivables.

Method of individually significant receivables have been individually identified as individually significant and impairment provided on an individual basis.

An impairment loss is calculated as the difference between the carrying amount and the present value of the estimated future cash flows (excluding the credit loss that has not been incurred) discounted at the original effective interest rate.

(2) Receivable that are individually insignificant but impairment provided on an individual basis:

Certain individually insignificant receivables have been individually identified as individually insignificant but impairment provided on an individual basis.

Within the receivables whose amount are individually insignificant, impairment is also provided on an individual basis for the aged receivables in order to reflect the risk of non-recovery.

Method of individually insignificant receivables have been individually identified as individually insignificant but impairment provided on an individual basis.

An impairment loss is calculated as the difference between the carrying amount and the present value of the estimated future cash flows (excluding the credit loss that has not been incurred) discounted at the original effective interest rate.

10. Receivables (Continued)

(3) Receivables that are assessed for impairment on a collective group basis:

Receivable has been individually assessed in (1) and (2), for the remaining made collection on a group basis, the receivable has been collectively assessed.

Determine in method of the group based on credit risk characteristics

Account receivable are divided into the following categories: vehicle, energy, chemical and liquid petroleum, off-hire engineering, air-conditioning, heating and air conditioning, land lease and building and engineering design, the relevant receivable is individually assessed according to the individual characteristics and the characteristics of the receivable. A group of off-hire engineering, the relevant receivable is individually assessed according to the individual characteristics and historical data. A group like design, land lease and building and engineering design, and etc, if the credit risk is assessed as being low, the receivable is collectively assessed for impairment based on the historical experience, not individually assessed for impairment.

Group 1	Contract
Group 2	Transportation vehicle
Group 3	Energy, chemical and liquid petroleum
Group 4	Air-conditioning
Group 5	Logistics
Group 6	Off-hire
Group 7	Financial leasing

Method of determining receivable assessment on a collection group basis (based on an ageing analysis, average of the actual balance and the...).

Contract	Provision determined based on an ageing analysis (O. ed. ageing)
Transportation vehicle	Provision determined based on an ageing analysis (O. ed. ageing)
Energy, chemical and liquid petroleum	Provision determined based on an ageing analysis (O. ed. ageing)
Air-conditioning	Provision determined based on an ageing analysis (O. ed. ageing)
Logistics	Provision determined based on an ageing analysis (O. ed. ageing)
Off-hire	Provision determined based on an ageing analysis (O. ed. ageing)
Finance lease receivable	Provision determined based on model analysis

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Text has legal reference only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

10. Receivables (Continued)

(3) Receivables that are assessed for impairment on a collective group basis: (Continued)

For the above groups, impairment is made based on historical receivable ageing analysis as follows:

Ageing	Percentage of total accounts receivable (%)	
	Group 1, 2, 4, 5, 6	Group 3
Within 1 year (inclusive)	5%	0%-5%
1-2 years (inclusive)	30%	30%
Over 2 years	100%	100%

(4) When the Group transfers the accounts receivable to the financial institutions without recourse, the difference between the proceeds received from the transaction and their carrying amounts and the related taxes is recognised in profit or loss for the current period.

11. Inventories

(1) Classification

Inventories include raw materials, work in progress, semi-finished goods, finished goods and available-for-sale materials. Raw materials include general consumables, packaging materials and other materials, which can be used to produce products in accordance with the definition of finished goods.

(2) Cost of inventories

Cost of inventories is calculated using the weighted average method.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)
 (English Text is the authoritative reference)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

11. Inventories (Continued)

(3) The underlying factors in the determination of net realisable values of inventories and basis of provision for decline in value of inventories

Inventories are initially measured at cost. Cost of inventories comprises all costs of purchase, freight and other incidental costs incurred in bringing the inventories to their present location and condition. Borrowing costs directly related to the production of inventories are also included in the cost of inventories (see Note 16). In addition, the changing cost of materials, labour and other direct costs and an allowance for all other factors are included.

The balance sheet date, inventories are carried at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the normal course of business less the estimated cost of completion and the estimated selling expenses and related taxes to make the sale. The net realisable value of materials held for use in the production of inventories is measured based on the net realisable value of the finished goods in which they will be incorporated. The net realisable value of finished goods held for sale is measured based on the net realisable value of the goods. If the net realisable value of finished goods is specified in the contract, the net realisable value of the goods held by the Group, the net realisable value of the goods in inventories shall be based on general selling price.

An allowance for the cost of the net realisable value of each class of inventories is recognised in profit or loss as a provision for diminution in the value of inventories.

(4) Inventory system

The Group maintains a perpetual inventory system.

(5) Amortisation of reusable material including low-value consumables and packaging material

Reusable material including low-value consumables and packaging material are amortised in full when received for use. The amount of the amortisation is included in the cost of the related assets.

12. Long-term equity investments

Long-term equity investments in the Company's long-term equity investments in subsidiaries and the Group's long-term equity investments in joint ventures and associates.

Subsidiaries are those entities over which the Company has control. Joint ventures are those entities over which the Group has joint control. Associates are those entities over which the Group has significant influence. Financial and operating policies.

Investments in subsidiaries are accounted in the Company's financial statements using the cost method, and are adjusted for the changes in the consolidated financial statements using the equity method. Investments in joint ventures and associates are accounted for using the equity method.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Text has legal reference only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

12. Long-term equity investments (Continued)

(1) Determination of investment cost

For long-term equity investments in enterprises acquired through a business combination: for long-term equity investments in enterprises acquired through a business combination in a same control relationship, the investment cost shall be the book value of the shareholding amount of the investee at the date of business combination; for long-term equity investments in enterprises acquired through a business combination in a non-same control relationship, the investment cost shall be the business combination cost.

For long-term equity investments in enterprises acquired through a business combination: for long-term equity investments in enterprises acquired by a same control relationship, the initial investment cost shall be the share purchase price actually paid; for long-term equity investments in enterprises acquired by a non-same control relationship, the initial investment cost shall be the fair value of the investee at the acquisition date.

(2) Subsequent measurement

For long-term equity investments in enterprises accounted for using the cost method, the shareholder shall measure the initial investment cost, and carry out dividend distribution in accordance with the investee's declared dividend.

For long-term equity investments in enterprises accounted for using the equity method, the shareholder shall measure the initial investment cost of a long-term equity investment in an enterprise as the fair value of the investee at the acquisition date; the shareholder shall measure the initial investment cost of a long-term equity investment in an enterprise as the fair value of the investee at the acquisition date, the difference included in the equity method and the cost method for long-term equity investments in enterprises shall be adjusted accordingly.

For long-term equity investments in enterprises accounted for using the equity method, the shareholder shall recognize the investment income according to the shareholding percentage of the investee. If the accounting policies and the accounting period are inconsistent between the company and the investee, the financial statements of the investee shall be adjusted in accordance with the accounting policies and the accounting period of the company. The shareholder shall recognize the investment income of the investee as the shareholding percentage of the investee's profit after tax for long-term equity investments in enterprises. If the investee has a profit after tax, the shareholder shall recognize the investment income as the shareholding percentage of the investee's profit after tax. If the investee has a loss, the shareholder shall recognize the investment income as the shareholding percentage of the investee's loss. If the shareholder has a profit after tax, the shareholder shall recognize the investment income as the shareholding percentage of the investee's profit after tax. If the shareholder has a loss, the shareholder shall recognize the investment income as the shareholding percentage of the investee's loss. If the shareholder has a profit after tax, the shareholder shall recognize the investment income as the shareholding percentage of the investee's profit after tax. If the shareholder has a loss, the shareholder shall recognize the investment income as the shareholding percentage of the investee's loss.

Notes to the Financial Statements

109

For the period from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

12. Long-term equity investments (Continued)

(3) Basis for determining the existence of joint control or significant influence over an investee

Control is the exercise of the investee's voting rights and the ability to affect the financial and operating policies of the investee and the ability to affect the financial and operating policies of the investee.

Joint control is the sharing of control over an arrangement according to the agreement, and either party has the right to prevent the other party from making decisions relating to the arrangement. It is the unanimous consent of the parties having control.

Significant influence is the exercise of the investee's power in the determination of financial and operating policies of the investee, but is not control or joint control over the investee.

(4) Method of impairment testing and measuring

The carrying amount of long-term equity investments in subsidiaries, joint ventures and associates is reduced to the recoverable amount if the recoverable amount is below the carrying amount.

13. INVESTMENT PROPERTIES

Investment properties, including land held for development, buildings held for lease or leasehold and buildings held for sale, are being recognized at cost less depreciation, impairment losses and other adjustments. Subsequent expenditure incurred in relation to investment properties are included in the carrying amount of the investment properties when it is probable that the expenditure will result in an increase in the future cash flows that the investment properties can be reliably measured; otherwise, the expenditure is recognized in profit or loss in the period in which the expenditure is incurred.

The Group adopts the fair value method to determine the investment properties and does not provide disclosures of fair value. The carrying amount of investment properties is adjusted based on the fair value at the balance sheet date, and the difference between the fair value and the original carrying amount is recognized in profit or loss in the period in which the expenditure is incurred.

When an investment property is transferred to or from investment properties, it is classified as investment properties if the transfer is an exchange of investment properties for investment properties. The carrying amount of the investment property is adjusted based on the fair value at the date of the transfer, and the difference between the fair value and the original carrying amount of the investment property is recognized in profit or loss in the period in which the expenditure is incurred. When an investment property is transferred to or from investment properties, it is classified as investment properties if the transfer is an exchange of investment properties for investment properties. The carrying amount of the investment property is adjusted based on the fair value at the date of the transfer. If the fair value at the date of the transfer is lower than the original carrying amount of the investment property, the difference is recognized in profit or loss in the period in which the expenditure is incurred; otherwise, it is included in other comprehensive income.

An investment property is derecognized when the investment property is sold or otherwise disposed of. The net amount of proceeds from the sale, less the carrying amount of the investment property, is recognized in profit or loss in the period in which the expenditure is incurred.

110 Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

14. Fixed assets

(1) Recognition

Fixed assets are those tangible assets held by the Group for use in the production of goods or for service, for rental or for sale and administrative or other profitable operations.

The cost of a purchased fixed asset comprises the purchase price, related taxes, and an directly attributable expenditure in bringing the asset to the condition in which it is intended to be used. The cost of self-constructed assets is measured in accordance with the applicable provisions in NEIL.15.

When assets of an item of fixed assets have different useful lives to provide benefits to the Group in different areas, it is necessary to separate the different depreciable amounts, each asset depreciated at a separate rate.

The book value including the cost of replacing a part of an item of fixed assets is depreciated in the carrying amount of the item if the replacement part is a separate asset, and the carrying amount of the replaced part is depreciated. The cost of the day-to-day servicing of fixed assets is depreciated in the financial statements.

Fixed assets are valued in the balance sheet at the accumulated depreciation and impairment losses.

(2) Depreciation

Fixed assets are depreciated using the straight-line method, all cases the cost of the asset less the estimated residual value less the estimated useful life, unless the fixed asset is classified as held for sale (see NEIL.28). For the fixed assets that have been provided for impairment loss, the related depreciation charge is specifically determined based on the adjusted carrying amount less the remaining useful life. The estimated useful life, residual value and depreciation rate for each class of fixed assets are as follows:

Classes	Residual Period (years)	Depreciation value rate (%)	Depreciation rate (%)
Plant and building	20-30	10%	3-4.5%
Machine and equipment	10-12	10%	7.5-9%
Office and household items	3-5	10%	18-30%
Motor vehicle	5	10%	18%
Truck, lorry	50	10%	1.8%
Offshore engineering equipment	15-30	10%	3-6%

Useful life, residual value and depreciation method are reviewed at least once each year-end.

Notes to the Financial Statements

For the period ended from 1 Jan and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)
 (English Translation Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

14. Fixed assets (Continued)

(3) For the method of impairment testing and measuring, refer to Note II.20.

(4) Basis for identification of fixed assets held under finance leases and related measurement

For the identification and method of measuring fixed assets under a finance lease, refer to Note II.27(3).

(5) Disposal

A fixed asset is deemed to be disposed when the economic benefits are expected to be realized from its disposal. The amount of proceeds from disposal is less than the carrying amount, and the difference is recognized as a loss in profit or loss for the period.

15. Construction in progress

Construction in progress is measured at actual cost. The cost of self-constructed assets includes the cost of materials, direct labor, capitalized borrowing costs (see Note II.16), and an amount for indirect attributable borrowing costs incurred in the period.

A self-constructed asset is included in construction in progress before it is ready for use when it is ready for use in the period. It is then reclassified to fixed assets. Construction in progress is included in the balance sheet as a current asset (see Note II.20).

16. Borrowing costs

Borrowing costs incurred directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of the asset.

Except for the above, borrowing costs are recognized as financial expenses in the income statement when incurred.

During the capitalization period, the amount of interest (including amortization of discount on semi-annual borrowing) is capitalized in each accounting period determined as follows:

- Where funds are borrowed specifically for the acquisition, construction or production of a qualifying asset, the amount of interest to be capitalized in the period is determined by calculating the effective interest rate on the borrowed funds and the amount of interest incurred from the period of borrowing.
- Where funds are borrowed generally and used for the acquisition, construction or production of a qualifying asset, the amount of interest to be capitalized is determined by applying the capitalization rate to the weighted average of the amount of funds raised during the period. The capitalization rate is the weighted average of the interest rates on the general borrowings.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

18. Goodwill

Goodwill is the excess of the purchase price over the identifiable intangible assets in the fair value of the identifiable intangible assets and the identifiable intangible assets in the combination in the long-term intangible assets.

Goodwill is amortised and is a depreciable intangible asset (see Note II.20). On disposal of an intangible asset combination, an identifiable intangible asset is identified and included in the calculation of the disposal gain or loss.

19. Long-term prepaid expenses

Long-term prepaid expenses are amortised on a straight-line method in the beneficial period.

The amortisation period is as follows:

Item	Amortisation period (years)
Rental	2-10
Others	3-5

20. Impairment of long-term assets

Fixed assets, construction in progress, intangible assets with finite life and long-term investments in subsidiaries, joint ventures and associates are tested for impairment if there is an indication that the carrying amount may be impaired. If the carrying amount is higher than the recoverable amount, the carrying amount is reduced to the recoverable amount. The recoverable amount is the higher of fair value less costs to sell and the value in use. The value in use is determined and recognized as the individual cash flows or the cash flows of the cash-generating unit. A cash-generating unit is the smallest identifiable group of assets that generate cash inflows that are largely independent of other assets.

Goodwill is tested for impairment in the financial statements of the annual financial statements, irrespective of whether there is an indication that it may be impaired. In conducting the test, the carrying amount of goodwill is included in the carrying amount of the cash-generating unit, which is tested for impairment. If the carrying amount is higher than the recoverable amount, the carrying amount of goodwill is reduced. The impairment loss is first allocated to the carrying amount of goodwill, and then allocated to the carrying amount of the other intangible assets in the cash-generating unit in the order of their carrying amounts.

Once an impairment loss is recognized, it is not reversed in a subsequent period.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

21. Provisions and contingent liabilities

Provisions for doubtful accounts, net of certain expected recoveries when the Group has a reasonable belief that probable future economic benefits will be realized on the obligation, and the amount of the obligation can be measured reliably.

At the initial measurement date the best estimate of the end of the period is used to determine the obligation. Factors including a contingency, change in risk, uncertainty and the time value of money, are taken into account in reaching the best estimate of the obligation. Where the effect of the time value of money is material, the best estimate is determined by discounting the related future cash flows. The increase in the discounted amount of the provision during the measurement period is recognized as an expense.

The carrying amount of provision is reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Provision which is expected to be paid within one year from the balance sheet date is classified as a current liability.

In estimating probable obligation during the measurement period, the evidence will not be confirmed by the occurrence or non-occurrence of future events. A provision for obligation during the measurement period, however, is not probable has the elements of the obligation will cause an outflow of economic benefits, the amount of the flow can be estimated reliably, the obligation is identifiable as a contingent liability.

22. Share-based payments

(1) Classification

Share-based payment transactions in the Group are classified as equity-settled share-based payments and cash-settled share-based payments.

(2) Method to determine the fair value of equity instruments

Fair value of stock option is estimated based on binomial lattice model. Certain assumptions of the stock option are made in the calculation of the fair value. And the binomial lattice model includes the main features of the option. The following factors are taken into account when using the binomial lattice model: (1) exercise price of the option; (2) exercise period; (3) conversion price of the stock; (4) expected future cash flows; (5) expected dividend of the stock; (6) risk-free rate within the measurement period.

(3) Basis of the best estimate of the number of equity instruments expected to vest

At each balance sheet date during the exercise period, the Group makes the best estimate according to the latest information of the number of employees who are expected to exercise the share-based payment instrument expected to vest. On the exercise date, the estimate shall be equal to the number of employees who have actually exercised.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Text has prevail in case of discrepancy)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

22. Share-based payments (Continued)

(4) Accounting treatment for share-based payment

(i) **Share-based payment with service condition**

When the Group has granted the equity instruments to employees, the amount measured at the fair value of the equity instruments granted to the employees at the grant date. If the equity instruments granted to employees are immediately exercisable, the fair value of the equity instruments granted is recognized as an expense in the period ending in the calendar year. If the equity instruments granted to employees do not vest immediately, the expense is recognized over the period of the service condition, and the achievement of the performance condition. The Group, at each balance sheet date during the vesting period, makes the best estimate according to the latest information of the number of employees who are expected to exercise the equity instruments granted. Based on the best estimate, the Group recognizes the expense received from the employees at the grant date as an expense, in the calendar year, the fair value of the equity instruments granted.

(ii) **Share-based payment with performance condition**

When the Group receives the expense from employees by incurring a liability, the expense is recognized as an expense when the expense is determined based on the service condition. When the expense received from employees is measured at the fair value of the liability incurred. If the liability is not immediately exercisable, the expense is recognized over the period of the service condition, and the achievement of the performance condition. The Group, at each balance sheet date during the vesting period, recognizes the expense received from the employees at the grant date as an expense, in the calendar year, the fair value of the liability based on the best estimate of the service condition.

23. Revenue recognition

Revenue is the gross inflow of economic benefits in the period arising in the course of the Group's ordinary activities when the inflow results in an increase in the company's assets, the company has increased the control of the economic benefits. Revenue is recognized in profit or loss when it is probable that the economic benefits will flow to the Group, the expense and cost can be measured reliably and the following conditions are met:

(1) Sale of goods

Revenue from sale of goods is recognized when all of the general conditions are satisfied and the following conditions are satisfied:

- The significant risks and rewards of ownership have been transferred to the buyer;
- The Group retains neither continuing managerial involvement nor control over the goods sold.

Revenue from sale of goods is measured at the fair value of the consideration received or receivable under the sales contract agreement.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)
 (English Text is in Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

23. Revenue recognition (Continued)

(1) Sale of goods (Continued)

The Group recognizes revenue after receipt of acceptance certificate from customer.

Sale of used and new vehicle are divided in sale of domestic car and sale of overseas car. As for sale of domestic car, the Group recognizes revenue after check and acceptance of vehicle. As for sale of overseas car, the Group recognizes revenue after vehicle is loaded specified in specific signed bill of lading and consignment.

The Group recognizes revenue when the change and sell agreement is fulfilled. When the car is sold in advance before completion, the revenue is recognized only when the construction is completed and delivered to the buyer. The delivery and installation received before the revenue is recognized is regarded as advance from customer.

(2) Revenue from construction contracts

When the construction contract can be estimated reliably, construction revenue and construction expense are accrued in the construction contract as recognized at the balance sheet date using the percentage of completion method.

The percentage of completion is determined based on completion of physical work in the contract.

When the construction contract cannot be estimated reliably:

- (a) If the construction contract can be completed, revenue is recognized when the construction contract incurred has been completed, and the construction contract is recognized as construction expense when incurred;
- (b) If the construction contract cannot be completed, the construction contract is recognized as construction expense immediately when incurred, and no construction revenue is recognized.

Construction contract revenue includes initial revenue related to bill of lading and incurred amount generated by construction contract.

Notes to the Financial Statements

(All amounts in RMB'000 unless otherwise stated)

(English Text has final Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

23. Revenue recognition (Continued)

(2) Revenue from construction contracts (Continued)

Increased amount can be recognized as construction revenue when the following construction contract elements are all satisfied:

(c) Client acceptance and confirmation the increased amount generated by construction contract element;

(d) Increased amount can be reliably measured.

Construction contract liability is recognized when estimated total construction contract exceeds construction revenue. Provision should be made for construction contract liability and charged in profit and loss for the concerned period.

(3) Rendering of services

Revenue from rendering of service is measured at the fair value of the consideration received or receivable under the construction agreement.

At the balance sheet date, the contract completion in relation to the rendering of service can be estimated as liability, when the rendering of service is recognized by reference to the age of completion in relation to the contract work performed.

When contract rendering of service cannot be estimated as liability, if the contract incurred are expected to be recoverable, when the amount recognized thereon has the contract incurred has been expected to be recoverable, and an estimated amount is charged in profit and loss for the concerned period; if the contract incurred are not expected to be recoverable, the contract incurred are recognized in profit and loss for the concerned period.

Freight agency, when the amount recognized at the historical date (e.g.) is the actual date (implied). A land freight agency, when the amount recognized is the agreed date specified in the contract. Freight agency: when the amount recognized at the historical date.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

24. Employee benefits

Employee benefits include all kinds of allowances and compensation paid by the Group for services rendered by employees of the Company in the form of remuneration, which mainly include short-term wages, pension benefits and remuneration for employees.

(1) short-term wages

Short-term wages include wages, salaries, bonuses, allowances and subsidies, staff welfare, medical insurance, sick pay, maternity allowances, housing fund, labor insurance fund, employee education fund and short-term aid allowance and etc. All short-term wages are recognized as liabilities in the period when the employee renders services and are charged in profit or loss calculated in accordance with the relevant accounting standards.

(2) pension benefits

During the reporting period, the Group's pension benefits are basic pension insurance and employee pension insurance which are all defined contribution plans.

B. Basic pension insurance

The Group's employee remuneration in the basic pension insurance is determined and implemented by local labor and social security departments. The Group paid the basic pension insurance premium in accordance with the local regulations according to the basic amount and determined by the local government. After retirement, local labor and social security departments are responsible for paying the pension benefits to the retired employees. The amount of pension insurance payable calculated according to the local regulations are recognized as liabilities during the period when the employee renders services and are charged in profit or loss calculated in accordance with the relevant accounting standards.

(3) Enterprise annuities plan

The Group provides compensation for the remuneration for employees in the form of employee pension insurance. In addition, which is recognized as a liability and charged in profit or loss when the Group is obliged to pay all the balance of the employee pension insurance plan to the employees in the form of employee pension insurance.

The Enterprise annuity plan is a defined contribution plan. The balance sheet date is classified as a current liability.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

25. Government grants

Government grants are an fee from non-related parties from the government and the Governmental aid, including refund of tax and financial subsidies, etc.

Government grants are recognized when the conditions attached to it can be complied with and the government grant can be received. If a government grant in the form of an fee from non-related parties, the grant is measured at the amount received or receivable. For a government grant in the form of an fee from non-related parties, it is measured at a fair value; if the fair value is not reliably determinable; the grant is measured at a nominal amount.

Government grants related to the development of intangible assets are recognized when the government grant is received. Government grants related to the development of intangible assets are recognized when the government grant is received.

Government grants related to the development of intangible assets are recognized by deducting the grant in arriving at the carrying amount of the asset. A deferred income, and amortized over its useful life, is not available, the amount of the grant is recognized as a deferred income, and included in the profit or loss of the period in which the deferred income is recognized; the government grant related to the development of intangible assets is recognized as a deferred income, and included in the profit or loss of the period in which the deferred income is recognized. The amount of the deferred income should be adjusted for government grants of the same category: government grants related to the development of intangible assets should be recognized in the profit or loss of the period in which the deferred income is recognized; government grants related to the development of intangible assets should be recognized in the non-current asset of the period in which the deferred income is recognized.

For government grants related to the development of intangible assets, the actual amount received is recognized at the initial carrying amount of the asset, and the amount of the deferred income is calculated based on the initial and the deferred income. The amount of the deferred income should be adjusted for government grants of the same category: government grants related to the development of intangible assets should be recognized in the profit or loss of the period in which the deferred income is recognized; government grants related to the development of intangible assets should be recognized in the non-current asset of the period in which the deferred income is recognized.

26. Deferred tax assets and deferred tax liabilities

Deferred tax assets and liabilities are determined based on the deductible and taxable temporary differences, being the difference between the carrying amount of an asset and liability for financial reporting purposes and their tax base, which include the deductible loss and a credit carry forward brought forward. Deferred tax assets are recognized when it is probable that a taxable profit will be available against which deductible temporary differences can be utilized.

Deferred tax is recognized for the temporary differences arising from the initial recognition of an asset or liability in an acquisition in a business combination and has affected the accounting profit or loss of the period (or periods). No deferred tax liability is recognized for a temporary difference arising from the initial recognition of a dividend.

At the balance sheet date, the amount of deferred tax recognized is measured based on the enacted tax rates and tax laws that are expected to apply in the period when the asset is realized or the liability is settled in accordance with the law.

Notes to the Financial Statements

For the period ended from 1 Jan and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)
 (English Text and Chinese Text are for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

26. Deferred tax assets and deferred tax liabilities (Continued)

The carrying amount of a deferred tax asset is reviewed at each balance sheet date. The carrying amount of a deferred tax asset is reduced where there is no longer sufficient taxable profit which will be available to all the benefits of the deferred tax asset be realized. Such reduction is reversed where there is become sufficient taxable profit which will be available.

Deferred tax liabilities are recognized for all differences arising from income in building, acquisition and joint venture, except where the Group is able to control the timing of the reversal of the difference, and it is probable that the temporary difference will not reverse in the foreseeable future. When it is probable that the temporary difference arising from income in building, acquisition and joint venture will be reversed in the foreseeable future and the taxable profit will be available in the future again which the temporary difference can be realized, the corresponding deferred tax asset are recognized.

All the balance sheet date, deferred tax asset and liabilities are offset if all the following conditions are met:

- the taxable entity has a legally enforceable right to offset the tax asset against a liability; and
- the related income tax is levied by the same authority in the same taxable entity; differences in taxable entity which either in end or else the corresponding liability and a net balance, shall be the same and the liability is imminently, in each foreseeable future in which significant amount of deferred tax liability are expected to be realized.

27. Operating and finance leases

A lease is classified as either a finance lease or an operating lease. A finance lease is a lease that substantially all the risks and rewards incidental to ownership of an underlying asset are transferred to the lessee, irrespective of whether the legal title has been transferred. An operating lease is a lease that is not a finance lease.

(1) Assets acquired under operating leases

Rental amounts under operating lease are recognized as expense in a straight-line basis over the lease term.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Text has legal reference only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

27. Operating and finance leases (Continued)

(2) Assets leased out under operating leases

Fixed assets leased out under operating leases, except for investments in real estate (see Note II.13) are depreciated in accordance with the Group's depreciation policies described in Note II.14(2). Investments in real estate are provided for in accordance with the accounting policies described in Note II.20. Other leased out assets under operating leases are amortized using the straight-line method. Income derived from operating leases is recognized in the income statement using the straight-line method over the lease term. If initial direct costs incurred in respect of the leased out asset material, they are initially capitalized and then amortized in proportion to the lease term in the same basis as the lease income. Otherwise, they are charged to profit or loss immediately.

(3) Assets acquired under finance leases

When the Group acquires an asset under a finance lease, the asset is measured at an amount equal to the lower of fair value and the present value of the minimum lease payments, each determined at the inception of the lease. At the commencement of the lease term, the minimum lease payments are allocated to long-term liabilities and the difference between the value of the leased asset and the minimum lease payments is recognized as unrecognized finance charge. Initial direct costs for a leaseable asset are added to the amount recognized for the leased asset. Depreciation and impairment losses are accounted for in accordance with the accounting policies described in Note II.14(2) and II.20, respectively.

If the depreciable asset ceases to exist, the Group will bargain purchase a leased asset at the end of the lease term, the leased asset is depreciated over its estimated useful life. Otherwise, the leased asset is depreciated over the shorter of the lease term and its estimated useful life.

Unrecognized finance charge under finance lease is amortized using an effective interest method over the lease term. The amortization is accounted for in accordance with the financial reporting requirements (see Note II.16).

The balance sheet data, long-term liabilities arising from finance lease, net of the unrecognized finance charge, are presented as long-term liabilities on non-current liabilities due within one year, in the balance sheet.

Notes to the Financial Statements

123

For the period ended from 1 January and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)
 (English Text is in Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

27. Operating and finance leases (Continued)

(4) Assets leased out under finance leases

At the commencement of the lease term, the Group recognizes the aggregate of the minimum lease payments determined at the inception of a lease and the initial direct costs of a finance lease receivable. The difference between the aggregate of the minimum lease payments, the initial direct costs, and the aggregate of the interest earned on the lease receivable is recognized as a netted finance income.

Netted finance income is allocated each accounting period during the lease term using the effective interest method. At the balance sheet date, finance lease receivable, net of netted finance income, are presented as long-term receivable on non-current assets side in the balance sheet. Please refer to Note 11.9 for accounting policies on the derecognition and impairment of finance lease receivable.

28. Assets held for sale and discontinued operation

An non-current asset is classified as held for sale when meet the following criteria: i. The asset (or disposal group) must be available for immediate sale in its present condition subject to any minor adjustments; ii. A non-cancellable sales agreement has been signed with the buyer, the disposal plan has been approved and the buyer is expected to complete the purchase.

Non-current asset held for sale (excluding financial assets, in essence, are measured at fair value and deferred tax assets) are measured at the lower of carrying amount and net realizable value. Any excess of the carrying amount over the net realizable value is recognized as an impairment loss.

Assets and liabilities of a non-current asset disposal group which is classified as held for sale are classified as current assets and current liabilities, which are presented in the balance sheet.

A discontinued operation is a component which has been disposed or classified as held for sale of the group's business and the operating and financial performance of the discontinued operation can be clearly distinguished from the rest of the group and can meet the following criteria: (a) This component of the business is a major line of business or geographic area of operation; (b) This component of the business is a financially independent and identifiable major line of business or geographic area of operation; (c) This component of the business is a business activity that is identifiable as a separate operation.

The Group shall disclose separately for the year the discontinued operation disclosed in the statement of comprehensive income comprising the following: the loss or gain of discontinued operation and the loss or gain of the measurement of the discontinued operation fair value less costs to sell.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Text has primary reference)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

29. Hedge accounting

Hedge accounting is a method which recognizes the offsetting effect of fair value and cash flow of the hedging instrument and the hedged item on consolidated financial statements in the same accounting period.

Hedged item and the item has the same exposure to change in fair value of cash flow and has a designated as being hedged. The Group's hedged item include a forecasted transaction has the related identified amount of foreign currency and the Group's foreign currency risk.

A hedging instrument is a designated derivative whose change in fair value of cash flow is expected to offset the change in the fair value of cash flow of the hedged item. For a hedge of foreign currency risk, a non-designated financial asset or non-designated financial liability may also be designated as a hedging instrument.

The hedge is a qualified by the Group's effectiveness in an ongoing basis and judged the hedge has been highly effective through the accounting period for which the hedging relationship is designated. A hedge is regarded as highly effective if both the following conditions are satisfied:

1. The inception and in substance period, the hedge is expected to be highly effective in achieving offsetting change in fair value of cash flow attributable to the hedged risk during the period for which the hedge is designated;

2. The actual offsetting is in a range of 80% - 125%.

Cash flow hedges

A cash flow hedge is a hedge of the exposure to variability in cash flows. The timing of the gain or loss on the hedging instrument has been determined to be an effective hedge recognized directly in the other comprehensive income. The effective portion is adjusted to the effective portion in the amount:

1. The cumulative gain or loss on the hedging instrument from inception of the hedge;

2. The cumulative change in the value of the expected cash flows of the hedged item from inception of the hedge.

The timing of the gain or loss on the hedging instrument has been determined to be an ineffective hedge recognized in the profit or loss.

If a hedge of a forecasted transaction becomes ineffective in the recognition of a non-financial asset or non-financial liability, the accumulated gain or loss from the hedge is recognized in the profit or loss in the same period during which the financial asset or financial liability affected is recognized. However, if the Group's hedge is all designated as a hedge recognized directly in the other comprehensive income, it will not be recognized in the accounting period, it is clarified in the profit or loss the amount has not been recognized.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Text and Chinese Text are Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

29. Hedge accounting (Continued)

Cash flow hedges (Continued)

If a hedge of a forecasted transaction becomes ineffective in the recognition of a financial asset or a financial liability, the accumulated gain or loss is reclassified from equity and recognized in profit or loss in the same period during which the financial asset or financial liability affects profit or loss. However, if the hedge becomes effective again in a future period, the accumulated gain or loss will not be reclassified in future accounting periods, it is classified in profit or loss when the amount is reclassified.

For cash flow hedge, when the hedge becomes ineffective, the accumulated gain or loss is reclassified from equity and recognized in profit or loss in the same period during which the hedged forecasted transaction affects profit or loss.

When a hedging instrument is terminated, expires, or the hedge no longer meets the criteria for hedge accounting, the gain or loss will be recognized in the hedge accounting period. In this case, the gain or loss on the hedging instrument has remained recognized in equity from the period when the hedge was effective until it is reclassified in profit or loss and recognized in accordance with the applicable accounting policy when the forecasted transaction occurs. If the forecasted transaction no longer occurs, the gain or loss on the hedging instrument has remained recognized in equity from the period when the hedge was effective until it is reclassified immediately.

30. Dividend distribution

Cash dividend is recognized as a liability for the dividend which the dividend is approved by the shareholders meeting.

Dividend distribution is provided in the financial statements which will be approved and declared after the balance sheet date, and recognized as a liability at the balance sheet date disclosed in the financial statements.

31. Related parties

If a party has the ability, directly or indirectly, to exercise significant influence over the reporting entity, or is a member of the same group, or is a related party, the reporting entity and the reporting entity are related parties. Related parties may be individual persons or entities. Entities in which the Company is a member of the same group and has a relationship with the reporting entity are related parties of the Company. Related parties of the Company and the Company include, but are not limited to:

- (a) the Company's parent;
- (b) the Company's subsidiary;
- (c) entities having a controlled relationship with the Company's parent;

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

32. Segment reporting

Reportable segments are identified based on operating segments which are determined based on the structure of the Group's internal organization, management reporting and internal reporting system. An operating segment is a component of the Group that has the following characteristics:

- It engages in business activities from which it may earn revenues and incur expenses;
- Its financial performance is regularly reviewed by the Group's management to make decisions about resource allocation and assess its performance;
- The Group is able to obtain financial information regarding financial position, financial performance and cash flows, etc.

Two or more operating segments may be aggregated in a single operating segment if the segments have similar economic characteristics, and are similar in each of the following aspects:

- the nature of each product and service;
- the nature of production processes;
- the economic characteristics of the product and service;
- the methods used to distribute the product and provide the service;
- the legal and regulatory environment manufacturing product and providing service.

In segments where the assets are measured on the basis of fair value, the carrying amount of the assets is measured at fair value, and segment accounting policies are consistent with the consolidated financial statements.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

33. Significant changes in accounting policy

- (1) On 10 March 2017, the Ministry of Finance issued the Notice on Implementing the Revised Accounting Standards for Business Enterprises No. 16, Government Grants (Cai Kai [2017] No. 15) effective the Accounting Standards for Business Enterprises No. 16, Government Grants, which came into force on 12 June 2017. For the period from 1 January to 30 June 2017, the company adopted the amended accounting standards for the interim financial statements. The impact of the change in accounting policies on financial statements for the period is as follows:

Contents and reasons for the change	Impacted items on financial statement	Impacted amount for the period from 1 January to 30 June 2017
The government grants relating to the daily activities of the enterprise shall be included in the income based on the nature of economic business; the government grants relating to the daily activities of the enterprise shall be included in non-recurring income and expenses. For government grants issued after 1 January 2017, the enterprise shall apply the method shall be applied, and future government grants incurred from 1 January 2017 shall be dealt with in accordance with the standards, adjustments shall be made according to the standards. The comparative financial statements for the period from January to June 2016 were not affected.	Other income Non-recurring income	91,032 (91,032)

- (2) On 28 April 2017, the Ministry of Finance issued the Notice on the Implementation of the Accounting Standards for Business Enterprises No. 42, Non-current Assets Held for Sale, Disposal Groups and Discontinued Operations (Cai Kai [2017] No. 13), which became effective from 1 January 2017. For the period from 1 January to 30 June 2017, the company adopted the amended accounting standards for business enterprises No. 42, Non-current Assets Held for Sale, Disposal Groups and Discontinued Operations which took effect on 28 March 2017. For the period from 1 January to 30 June 2017, the company adopted the amended accounting standards for business enterprises No. 42, Non-current Assets Held for Sale, Disposal Groups and Discontinued Operations which took effect on 28 March 2017. The impact of the change in accounting policies on financial statements for the period is as follows:

 (All amounts in RMB'000 unless otherwise stated)
 (English Translation Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

34. Critical accounting estimates and judgements

The main financial statements are prepared by management. Management makes estimates and assumptions that affect the carrying amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. Estimates and assumptions are made in the preparation of the financial statements. The most critical estimates and assumptions are discussed below.

Goodwill, which is based on the difference between the fair value of the identifiable intangible assets and the carrying amount of the identifiable intangible assets, is measured at the acquisition date. If the carrying amount of the identifiable intangible assets exceeds the fair value of the identifiable intangible assets, the excess is recognized as an impairment loss. If the carrying amount of the identifiable intangible assets is less than the fair value of the identifiable intangible assets, the excess is recognized as an impairment gain.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Text has primary reference)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

34. Critical accounting estimates and judgements (Continued)

(3) Impairment of long-term assets

As described in Note II.20, long-term assets are reviewed at each balance sheet date to determine whether the recoverable amount of the asset is less than carrying amount. If an indication has been identified that the carrying amount of the asset may be higher than its recoverable amount, the asset is deemed to have been impaired and an impairment loss is recognized.

The recoverable amount of an asset (or cash generating unit) is the greater of its fair value less costs of disposal and its value in use. Since a market price for the asset (or cash generating unit) cannot be obtained, the fair value of the asset (or cash generating unit) cannot be determined. In determining the value in use, significant judgements are exercised over the asset's cash flows, discounting rate, related operating expenses and discounting rate calculation. All relevant market data which can be obtained are used to estimate the recoverable amount, including the estimate of the cash flows and related operating expenses based on reasonable and sustainable assumptions.

If the management identified the gross profit margin used in the cash flow calculation of the asset (or cash generating unit) and the identified gross profit margin is lower than the gross profit margin concerned, the Group is required to make adjustments to long-term assets.

If the management identified the discount rate applied to the cash flow discount and the identified discount rate is higher than the discount rate concerned, the Group is required to make adjustments to long-term assets.

If the actual gross profit margin discount rate is higher than the management's estimate, the Group cannot determine the recognized adjustments to long-term assets.

(4) Depreciation and amortisation of assets such as fixed assets and intangible assets

As described in Note II.14 and 17, fixed assets and intangible assets are depreciated and amortized on a straight-line basis over their useful lives in accordance with the relevant accounting policies. The useful life of the assets are regularly reviewed to determine the depreciation and amortization charges in each reporting period. The useful life of the assets are determined based on historical experience of similar assets and the estimated technical change. If there has been a significant change in the factors used to determine the depreciation and amortization, the depreciation and amortization is adjusted accordingly.

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

5. Other receivables (Continued)

(1) Other receivables analysed by categories are as follows: (Continued)

(i) An indirect wholly-owned subsidiary of Enric and another subsidiary of the Group, CIMC Enric Inc. (Shenzhen) Ltd. (EIHL), entered into an agreement (Agreement) on 27 August 2015 with SOEG PTE LTD (SOEG), Jiang Pacific Shipping Group Co., Ltd. (Jiang Pacific) and Eegreen Group Co., Ltd. (Eegreen) (collectively, the Vendor), pursuant to which the Vendor agreed to sell and EIHL agreed to purchase 100% equity interest in Sin Pacific Offshore & Engineering Co., Ltd. (SPOE). Accordingly, the Company, SOE and Eegreen entered into a financial assistance framework agreement (Financial Assistance Agreement) which governed the financial assistance provided by the Group, SOE in the form of loan and guarantee. As at 1 June 2016, Enric announced that the Board had decided to cease its involvement in the Agreement and to be fulfilled and the Vendor had breached certain material terms of the Agreement. EIHL delivered the main part of the Vendor's performance in the Agreement and the Vendor had defaulted on the loan and guarantee of 178,634,000. On the same date, the Company delivered the main part of the SOE and Eegreen's performance in the Financial Assistance Agreement and the Vendor had defaulted on the loan of 482,052,000 and the guarantee of 1,000,000,000 provided by a subsidiary of Enric, in favour of SOE.

During the second half year of 2016, the delivery of 1,000,000,000 pledged from SOE's bank loan has been hindered by the bank as SOE failed to pay the bank loan in full. As at 31 December 2017, the receivable from SOE amounted to 1,480,351,000. Based on the information available, Enric has made a provision in favour of 178,634,000 and 1,184,281,000 respectively to the Vendor and the receivable from SOE is a net amount of 1,362,915,000 during the year ended 31 December 2016.

SOE and the Receivable entered into a settlement agreement pursuant to which EIHL agreed to settle the receivable from SOE in full. The settlement agreement was signed on 5 July 2017, and the Receivable has agreed to settle the receivable from SOE in full. The settlement agreement was signed on 5 July 2017, and the Receivable has agreed to settle the receivable from SOE in full. The settlement agreement was signed on 5 July 2017, and the Receivable has agreed to settle the receivable from SOE in full.

For the period ended 30 June 2017, based on the information available and the date of the receivable, Enric has made an impairment provision in favour of RMB105,549,000 in the receivable from SOE. As at 30 June 2017, Enric has made a provision in favour of 178,634,000 and 1,289,830,000 respectively to the Vendor and the receivable from SOE is a net amount of 1,468,464,000.

(ii) The borrowing mainly concerned in the bank borrowing of the Finance Company is an amount of 135,488,000 which expired on 31 July 2017; and a term facility and a revolving facility.

(iii) A number of underevaluated agreements mainly concerned in the bank ledger are an acquisition of Finance Company, the former subsidiary of the Group.

(2) Aging analysis of other receivables is as follows:

	30 June 2017	31 December 2016
Within 1 year (Inclusive)	9,174,370	9,667,565
1 - 2 years (Inclusive)	558,934	999,143
2 - 3 years (Inclusive)	31,344	95,819
Over 3 years	189,953	165,799

Subtotal 9,954,601 10,928,326
 Less: provision for doubtful debts (1,468,464) (1,362,915)

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

5. Other receivables (Continued)

(6) Other receivables that are written off in current period

Other receivable written off in current period amounted to RMB6,579,000 (For the period ended June 30 2016: Nil).

(7) As at 30 June 2017, the five largest balances of other receivables are analysed as follows, accumulated by arrearage parties:

	Notes	Nature	Book balance	Aging	% of total balance	Provision for doubtful debts
Tianjin Lanhi Offshore Engineering Limited (Panhui (Tianjin Lanhi))	(i)	Receivable arising from intercompany transactions	3,575,000	within 1 year	35.91%	-
Sinacific Offshore & Engineering Co., Ltd (SOE)		Advance payment for intercompany transactions	1,658,985	within 1 year 1-2 years	16.67%	1,468,464
Zhenjiang CIMC Embellishy Real Estate Co., Ltd (Embellishy Real Estate)	(ii)	Receivable from Associates	503,568	1-3 years	5.06%	-
Changjiang Securities Company Limited		Balance due to change	299,950	within 1 year	3.01%	-
Jiuhua Securities Company Limited		Balance due to change	152,100	within 1 year	1.53%	-
Total			6,189,603		62.18%	1,468,464

The total amount of the Group's five largest receivable as at 31 December 2016 amounted to RMB7,130,634,000, accounting for 65.25% of the total balance.

(i) As at 23 December 2016, Qianhai CIMC Leasing (Shenzhen) Co., Ltd. (referred to as 'Qianhai Leasing'), the former subsidiary, and Tianjin Yngwang Machine Equipment Leasing Ltd (referred to as 'Tianjin Yngwang'), the former subsidiary, and Tianjin Blower signed capital increase agreements and industrial and commercial registration in a changed on 28 December 2016. As at 30 June 2017, the total bill 3.575 billion has been received. According to the contract, after the date of capital increase, Tianjin Blower should gradually pay the bill by annual equal instalment for the next 4.9853% from 2017-2019 which will be paid from the year 2018. After the payment, the dividend liability confirmed as the non-current liability in the amount of 487,632,000 while the difference of capital increase and the non-current liability mentioned above is accounted for.

(ii) As at 14 October 2016, 80% share of Embellishy Real Estate, the wholly-owned subsidiary of the Group, was transferred to Nanjing Gaichen Company Limited Real Estate Development Co., Ltd (referred to as 'Garden') by the Group and the industrial and commercial registration in a changed in Shenzhen. The intercompany lending from the Group to Embellishy Real Estate is accounted in related intercompany lending from the Group to Garden. According to the intercompany agreement, in the next 9 months after the industrial and commercial registration in Garden, Garden will repay Embellishy Real Estate in full in the Group. As at 30 June 2017, the total amount of the intercompany lending is RMB503,568,000.

Notes to the Financial Statements

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

11. Available-for-sale financial assets (Continued)

(2) Detailed information of the available-for-sale financial assets: (Continued)

Available-for-sale equity investments measured at historical cost:

	31 December 2016	Increase in cost ended	Decrease in cost ended	30 June 2017	Shareholding percentage	Carrying amount ended
Available-for-sale equity investments						
China United International Rail Container (Group) Company Limited (CR International)	380,780	-	-	380,780	10.00%	4,000
Bank of Communications Shanghai Management Company Limited (BOCM Shanghai)	8,125	-	-	8,125	5.00%	-
Beihai Yinjian Company Limited (Beihai Yinjian)	1,700	-	-	1,700	1.01%	-
Guangdong Sameng Engineering Company Limited (Guangdong Sameng)	1,365	-	-	1,365	0.09%	-
Donghai Container Terminal Service Company Limited	270	-	(270)	-	0.00%	-
Zhuhai Yinhua Technology Company Limited (Zhuhai Yinhua)	20,000	-	-	20,000	2.00%	-
Subtotal	412,240	-	(270)	411,970		4,000
Provisional impairment	(3,065)	-	-	(3,065)		-
Total	409,175	-	(270)	408,905		-

Available-for-sale equity investments measured at historical cost mainly consist of investments in non-listed companies, which do not have listed securities in active markets. The available-for-sale investments are of fair value in large, and the availability of the investments cannot be reasonably confirmed. Thus, the fair value cannot be determined reliably. The Group's management has determined the carrying amount.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

12. Long-term receivables

	30 June 2017	31 December 2016
Finance Lease Receivable	21,106,913	21,814,831
Less: Unearned financing income	(7,601,148)	(8,593,181)
Finance lease receivable-net	13,505,765	13,221,650
Sale of goods in instalment	235,898	325,592
Others	210,113	158,052
Subtotal	13,951,776	13,705,294
Less: Provision for impairment	(452,449)	(485,052)
Total	13,499,327	13,220,242

At the end of 30 June 2017, the impairment receivable defined in paragraph 12.1 is less than 5% (including) of the carrying amount of the related assets. (31 December 2016: Nil)

The total fair value of minimum lease receivable under finance lease reflects the balance sheet value, which is based on the contractual undiscounted cash flows (including interest) at the end of the lease term. If the balance sheet value is less than the balance sheet value, the receivable is fully impaired.

Minimum lease receivable	30 June 2017	31 December 2016
Within 1 year (including)	5,677,533	5,467,492
1 and 2 years (including)	3,746,417	3,608,636
2 and 3 years (including)	2,543,013	2,261,810
Over 3 years	14,817,483	15,944,385
Subtotal	26,784,446	27,282,323
Less: unearned finance income	(8,780,233)	(9,845,686)
Total	18,004,213	17,436,637

As at 30 June 2017, the impairment receivable recognized due to the impairment of financial assets is in accordance with paragraph 12.1 (31 December 2016: Nil).

Notes to the Financial Statements

For the period ended from January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation Reference Only)

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

15. Fixed assets (Continued)

(1) Fixed assets (Continued)

As at 30 June 2017, the machine in the book value is 375,761,000 (original cost of 525,362,000) and accumulated depreciation of 109,272,000 (31 December 2016: 398,144,000 (original cost of 525,305,000)) and accumulated depreciation of 159,815,000, see Note IV. 24.

In the period, depreciation of fixed assets recognized amounted to 916,498,000 (For the period ended 30 June 2016: 1,056,717,000), of which 776,825,000, 9,897,000 and 129,776,000 (For the period ended 30 June 2016: 891,935,000, 14,860,000 and 149,922,000) have been charged in cost of sale, selling and distribution expenses, general and administrative expenses, respectively.

In the period, the original cost of fixed assets transferred from construction in progress is 414,166,000 (2016: 1,206,156,000).

(2) As at 30 June 2017, the carrying amount of temporarily idle buildings, machinery and equipment amounts to 344,385,000 (original cost of 614,561,000) (31 December 2016: carrying amount of 207,894,000 and original cost of 409,415,000). The following table presents the detail:

	Original cost	Accumulated depreciation	Provision for impairment	Carrying amount
Building	390,069	(108,091)	(12,592)	269,386
Machine and equipment	193,270	(98,910)	(26,036)	68,324
Tank barge	3,510	(2,640)	(102)	768
Office & house equipment	27,712	(17,845)	(3,960)	5,907
	614,561	(227,486)	(42,690)	344,385

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

21. Deferred tax assets and deferred tax liabilities (Continued)

(2) Unrecognised deferred tax assets

	30 June 2017	31 December 2016
Deductible Intangible Assets	1,712,996	1,606,035
Intangible Assets of SOE	634,426	340,729
Intangible Assets of Investment in Equity	22,119	22,119
Others	3,125	3,125
Total	2,372,666	1,972,008

(3) Maturity of deductible losses that are not recognised as deferred tax assets:

	30 June 2017	31 December 2016
2017	1,296,480	1,199,243
2018	1,086,941	1,086,941
2019	437,892	340,655
2020	819,702	819,702
2021 and after 2021	4,149,817	4,149,817
Total	7,790,832	7,596,358

Note 1: By the end of 2016 and at a 30 June 2017, unrecognised deferred tax assets aged less than 5 years (including from deductible intangible assets) of the Group are as follows: deductible intangible assets generated from Hong Kong, the United States of America, the United Kingdom, the People's Republic of China and Australia can be forfeited if they are indefinite; deductible intangible assets generated from the Netherlands can be forfeited in the next nine years.

At a 30 June 2017, the Group is subject to an income tax on the difference of a share if it is bid in Hong Kong and the local government decided to bid the share in mainland China. The estimated difference arising from the undistributed profit of the share is approximately 3,630,258,000 (31 December 2016: 3,303,113,000). Since the Group can control the dividend distribution in the share and has decided not to bid the share in the foreseeable future, the deferred income tax liability on the undistributed profit is not recognised.

The Group had not recognised deferred tax liability other than the mentioned above.

Notes to the Financial Statements

 (English Text and Chinese Text are for Reference Only)

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

24. Restricted assets

As at 30 June 2017, the restricted assets in the consolidated financial statements are as follows:

		31 December 2016	Change in addition	Change in decrease	Exchange difference adjusting from RMB to US dollar conversion	30 June 2017
Assets						
• Cash at bank and on hand	IV.1	987,257	49,135	(219,448)	(99)	816,845
• Receivables	IV.3	206,753	207,835	(158,188)	-	256,400
• Long-term receivables	IV.12	8,164,729	(57,408)	(654,249)	-	7,453,072
• Finance	IV.15	398,144	-	(22,383)	-	375,761
Total		9,756,883	199,562	(1,054,268)	(99)	8,902,078

Long-term receivables are classified as financial assets held for sale. Receivables are classified as financial assets held for sale if they are held for sale in the ordinary course of business, they are available for sale, and their fair value can be reliably measured. The restricted cash at bank and on hand are held in the People's Bank of China's Finance Company.

62. Income tax expenses (Continued)

Reconciliations between income tax expense and accounting profit are as follows:

	For the Period from 1 January to 30 June 2017	For the Period from 1 January 30 June 2016
Profit before tax	1,576,142	(165,844)
Income tax expense calculated at applicable rate	395,233	338,676
Effect of incentives	(63,499)	(46,248)
Enterprises' deductible losses	20,714	32,243
Other income tax adjustments	(90,621)	(74,525)
Utilization of deferred tax assets	(5,941)	(7,695)
Tax effect of unrecognized liabilities	112,902	38,339
Deductible temporary difference from which deferred tax assets are recognized in the future	142,126	95,650
Effect of exchange rate on deferred tax	(735)	-
Tax effect of income tax annual filing	(546)	(1,124)
Income tax expense	509,633	375,316

63. Earnings per share

(1) Basic earnings per share

Basic earnings per share is calculated by dividing consolidated net profit attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding:

	For the Period from 1 January to 30 June 2017	For the Period from 1 January 30 June 2016
Consolidated profit attributable to ordinary shareholders and the effect of the Company's share repurchase	796,898	(378,034)
Influence of the issuing of new shares	(35,908)	(51,900)
Consolidated profit (adjusted) attributable to ordinary shareholders of the Company	760,990	(429,934)
Weighted average number of ordinary shares outstanding ('000)	2,979,059	2,978,120
Basic earnings per share (RMB/share)	0.2554	(0.1444)
Including: Including non-basic earnings per share	0.2554	(0.1444)

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)
 (English Text is in Reference Only)

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

63. Earnings per share (Continued)

(2) Diluted earnings per share

Diluted earnings per share is calculated by dividing net profit attributable to ordinary shareholders of the Company adjusted based on the dilutive potential ordinary shares by the adjusted weighted average number of ordinary shares outstanding:

	For the Period from 1 January to 30 June 2017	For the Period from 1 January 30 June 2016
Consolidated profit attributable to ordinary shareholders and the minority interest of the Company	796,898	(378,034)
Influence of the issuing of restricted shares	(35,908)	(51,900)
Effect of bidirectional share in program	(1,371)	-
Consolidated profit (adjusted) attributable to ordinary shareholders of the Company	759,619	(429,934)
Weighted average number of ordinary shares outstanding (diluted) ('000) (adjusted)	2,986,410	2,978,120
Diluted earnings per share (RMB/ share)	0.2544	(0.1444)

()

	For the Period from 1 January to 30 June 2017	For the Period from 1 January 30 June 2016
Weighted average number of ordinary shares outstanding ('000)	2,979,059	2,978,120
Effect of share in ('000)	7,351	-
Weighted average number of ordinary shares outstanding (diluted) ('000)	2,986,410	2,978,120

The bad debt of the Company amounted to RMB60,000,000 (2.01% of the total) as of June 30, 2017 (RMB2,980,352,786) as reported in the consolidated financial statements.

IX. SHARE-BASED PAYMENTS (CONTINUED)

2. Information on equity-settled share-based payment (Continued)

(2) Information on equity-settled share-based payment of the Company

A share incentive scheme (the "Scheme") was approved in the shareholders' meeting of the Company held on 28 September 2010. According to the Scheme, the board of directors of the Company shall have the authority to determine the key management personnel and the employees to be covered by the Scheme of the Company. The effective period of the Scheme is ten years from the grant date of shares in the Scheme. The incentive is exercisable in the period. The incentive is 25% exercisable from the grant date of shares after 24 months since the grant date of the shares and exercisable after 48 months since grant date. The remaining 75% is exercisable from the grant date of shares after 48 months since grant date of the shares of the Scheme. Each incentive is subject to the following conditions to be satisfied in the Company. In addition, the holders of the shares shall be subject to all the conditions as follows:

- The holders of the shares shall be eligible to exercise the shares.
- The increase of the share price of the Company after the end of the reporting period shall not be less than 6% and the average share price of the Company after the end of the reporting period shall not be less than 10% of the share price of the end of the reporting period.
- During the reporting period, the net share price of the Company and the net share price of the Company after the end of the reporting period shall not be less than the average price of the share price of the Company after the end of the reporting period.

The total number of shares in the grant was 60,000,000, 54,000,000 among which the initial grant of the shares was 12.39 million shares and the remaining 6,000,000 in the end of the period.

The Company distributed a cash dividend of 0.35 yuan per share, 0.46 yuan per share, 0.23 yuan per share, 0.27, 0.31 yuan per share, 0.22 yuan per share and 0.06 yuan per share on 31 May 2011, 21 June 2012, 28 June 2013, 27 June 2014, 29 July 2015, 20 July 2016 and 20 July 2017 respectively under the Scheme. In accordance with the Scheme, in the implementation of the annual dividend distribution plan for 2010, 2011, 2012, 2013, 2014, 2015 and 2016, the Board of Directors adjusted the exercise price of the shares from the original 54,000,000 shares in the grant on 28 September 2010. After the adjustment, the exercise price is 10.49 yuan per share.

According to the relevant provisions of the shareholders' meeting on 22 September 2011, the shares of 6,000,000 were included in the Scheme on 28 September 2010 and the exercise price of 17.57 yuan per share. With the implementation of the annual dividend distribution plan for 2011, 2012, 2013, 2014, 2015 and 2016 under the Scheme, the cash dividend of 0.46, 0.23, 0.27, 0.31, 0.22 and 0.06 yuan per share respectively, the exercise price of the shares was adjusted to 16.02 yuan per share.

Notes to the Financial Statements

XIII. SEGMENT REPORTING

In accordance with the Group's internal organizational structure, management decisions and internal reporting structure, nine reportable segments are identified by the Group including: Consumer, Real Estate, Vehicle, Energy and Chemicals & Materials, Offshore, Air Traffic, Logistics, Finance, Personal Services and Healthcare. Each reportable segment is an independent business segment providing different products and services. Independent management is a listed individual business segment a different technical and market are addressed. The Group reports the financial information of individual segments separately to determine the overall gain and performance of the Group.

1. Segment profits, losses, assets and liabilities

In order to assess the segment performance and the overall gain, the Group's management reports segment performance, revenue, assets and liabilities for each segment separately. The main business information is detailed as follows:

Segment assets include tangible assets, intangible assets, held-for-sale assets and accounts receivable, etc, but exclude deferred tax assets and non-current assets held for sale. Segment liabilities include payable, bank loan, provision, special payable and other liabilities, while deferred tax liabilities are excluded.

Segment financial expenses (including interest expense and interest expense of segment revenue), financing expense, depreciation and amortization, impairment loss, interest expense and income tax payable of individual segments. Taxation is recorded among segments and non-current assets and tax income is recorded in the consolidated financial statements.

Notes to the Financial Statements

For the period ended from January and ended 30 June 2017

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES

The Group has the following risks from its financial instruments in the normal course of the Group's operation, which mainly include:

- Credit risk
- Liquidity risk
- Interest rate risk
- Foreign exchange risk

This note sets forth information about the Group's exposure to each of the above risks and the Group's objectives, policies and procedures for measuring and managing risk and exposure.

The Group aims to seek the appropriate balance between the risk and benefit from its financial instruments and mitigate the adverse effects of the risk of financial instruments on the Group's financial performance. Based on such objectives, the Group's risk management policies are established, identified and analyzed the risks faced by the Group, the appropriate risk limits and controls, and monitor risk and adherence limits. Risk management policies and procedures are reviewed regularly to reflect changes in market conditions and the Group's activities. The internal audit department of the Group undertake both regular and ad-hoc review of risk management controls and procedures.

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

1. Credit risk

Credit risk is the risk that a financial instrument will cause a financial loss to the holder by failing to discharge an obligation. The Group's credit risk is mainly attributable to cash, bank, receivable, debt instrument and derivative financial instrument entered into for hedging purpose and etc. Except the credit risk management and reporting basis.

The cash and bank of the Group is mainly held in well-known financial institution. Management does not face any significant credit risk from the derivative and derivative financial instrument in market default and credit risk of the Group.

In respect of receivable, the risk management committee of the Group has established a credit limit and high individual credit evaluation and determined all credit limits to determine the credit limit and ensure a reliable collection. The evaluation function of the Group and the bank credit record are available and reliable (if available). Receivable aged within 30 days from the date of billing. Normally, the Group does not bear a significant credit risk, because the management has established a credit limit and high individual credit evaluation.

The management team of the Group had made the loan financial leasing receivable risk management, based on the each individual industry, the credit rating function and the knowledge of the counterparty's business and financial standing. If the default function occurs, the management team of the Group makes a follow-up, including selling leased assets, depending on the available liquid assets. If the default function occurs, the management team keeps the high credit risk of the default in the balance sheet and default in the balance sheet, nil the default function will have been paid. In addition, the management team makes a follow-up which can be paid from the management team of the lease, depending on individual cases. When the Group is a party to the credit risk, it is a general manager, director and control the execution of the credit risk, especially, legal and accounting lease ability to make the management.

Based on the indicators such as a credit rating and financial statements and financial statements, the Group provides independent and continuous monitoring of the execution and business conditions, ensuring the execution of the function.

In addition, the receivable of the Group has a net interest rate mainly derived from a wide range of counterparty from the management team of the default.

The Group's credit risk is influenced mainly by the individual characteristics and industry of each counterparty. The management team has a high credit rating and the significant credit rating of the credit risk is mainly based on the Group's significant credit rating of the individual counterparty. As the balance sheet date, the Group and the Company had a certain credit risk, a 29.12% (2016: 30.89%) of the total accounts receivable and the receivable aged from the financial statement of the Group.

In the event of a small market liquidity risk, the management team has established a credit limit and high individual credit evaluation. Besides, the credit rating function and the knowledge of the counterparty's business and financial statements, the Group and the bank credit record are available and reliable (if available). Receivable aged within 30 days from the date of billing. Normally, the Group does not bear a significant credit risk, because the management team has established a credit limit and high individual credit evaluation. In addition, the management team makes a follow-up which can be paid from the management team of the lease, depending on individual cases. When the Group is a party to the credit risk, it is a general manager, director and control the execution of the credit risk, especially, legal and accounting lease ability to make the management.

The maximum credit risk is derived from the carrying amount of each financial asset, including derivative financial instrument, as in the balance sheet. Except for the financial guarantee given by the Group as a party in Net X, the Group and the Company do not provide any guarantee which would be a credit risk to the Company. The maximum credit risk in respect of the financial guarantee is the balance sheet date disclosed in Net X.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

3. Interest rate risk

Fixed and floating interest-bearing financial instruments held by the Group include derivative financial instruments and cash flows, respectively. The interest rate risk is managed by the Group through the use of derivative financial instruments in a prudent manner. The Group had entered into interest rate contracts, which were made based on the currency of the borrowing. Hence the Group's exposure to fixed and floating interest rate risk is fully hedged.

(1) As at 30 June 2017, the Group held the following interest-bearing financial instruments:

	30 June 2017		31 December 2016	
	Interest rate (%)	Amount	Interest rate (%)	Amount

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

3. Interest rate risk (Continued)

(2) Sensitivity analysis

As at 30 June 2017, interest rate sensitivity analysis shows that a general increase/decrease of 25 basis points (31 December 2016: 25 basis points) in interest rate, with all other variables held constant, would increase/decrease the Group's net profit by 56,922,000 and 56,922,000 (2016: 60,931,000 and 60,931,000, respectively).

The sensitivity analysis above indicates the potential change in the net profit and equity had a rise in the interest rate had occurred at the balance sheet date and had been applied to measure the financial instruments held by the Group. However, the Group's fair value in the period is not the balance sheet date. In effect, the cash flow in the period is not a function of the interest rate in the period held by the Group at the balance sheet date, the impact on the net profit and equity is estimated as an annualized impact in the period. The impact of a change in interest rate on the annualized impact is not the same as the impact on the period.

4. Foreign exchange risk

The major currency received by the Group is USD and the major currency paid is RMB. In order to avoid the risk of exchange rate fluctuation, the Group has entered into foreign exchange contracts to hedge the balance sheet date. Difference in exchange rate between the period and the period end may result in a net gain or loss.

- (1) Besides the exchange rate risk arising from financial assets and liabilities held by the Group and financial liabilities at fair value through profit or loss disclosed in Note IV.2 and IV.26, the Group's net profit and 30 June exchange rate risk arising from recognized assets and liabilities denominated in foreign currencies is as follows. For the period, the amount of the exchange rate risk is denominated in RMB, and the exchange rate is the balance sheet date. Difference in exchange rate between the period and the period end may result in a net gain or loss.

	30 June 2017				31 December 2016			
	USD	EUR	HKD	JPY	USD	EUR	HKD	JPY
Carry bank and on hand	677,567	1,513,464	32,959	24,414	823,367	1,169,615	40,023	44,700
Receivable	7,480,210	165,053	18,293	26,586	3,612,395	254,069	18,353	82,916
Shareholding	(6,949,798)	(623,954)	-	-	(5,759,019)	(61,487)	-	(7,169)
Long-term debt	(12,385,960)	-	(215,244)	-	(14,736,500)	-	(132,386)	-
Payable	(487,959)	(113,654)	(614)	-	(1,023,302)	(118,003)	(30,414)	-

(All amounts in RMB'000 unless otherwise stated)

(English Text has final Reference Only)

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

4. Foreign exchange risk (Continued)

(2) The following are the exchange rates for RMB against foreign currencies applied by the Group and the Company:

	Average exchange rate		Benchmark average exchange rate	
	For the	For the	30 June 2017	31 December 2016
	Period from	Period from		
	1 January to 30 June 2017	1 January to 30 June 2016		
USD	6.8871	6.5359	6.7744	6.6312
EUR	7.4349	7.2993	7.7496	7.3750
HKD	0.8857	0.8418	0.8679	0.8547
JPY	0.0616	0.0590	0.0605	0.0645

(3) Sensitivity analysis

Assuming all the risk variable remained constant, 2.80%, 2.80%, 2.70% and 1.90% weakening of the RMB against the USD, EUR, HKD and JPY respectively at 30 June 2017 (2.80%, 2.80%, 2.70% and 1.90% strengthening of the RMB against the USD, EUR, HKD, and JPY respectively at 31 December 2016) would have increased (decreased) earnings and net profit by the amount shown below; the effect in RMB and translated into the share of the balance sheet data is:

	Equity	Net profit
30 June 2017		
USD	(245,269)	(245,269)
EUR	19,759	19,759
HKD	(3,333)	(3,333)
JPY	727	727
Total	(228,116)	(228,116)
31 December 2016		
USD	(415,669)	(415,669)
EUR	26,128	26,128
HKD	(2,115)	(2,115)
JPY	1,716	1,716
Total	(389,940)	(389,940)

2.80%, 2.80%, 2.70% and 1.90% strengthening of the RMB against USD, EUR, HKD and JPY respectively at 30 June 2017 (2.80%, 2.80%, 2.70% and 1.90% weakening of the RMB against the USD, EUR, HKD, and JPY respectively at 31 December 2016) would have had the effect on the amount shown above, on the balance sheet data is:

Notes to the Financial Statements

277

For the period ended from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Text is in Reference Only)

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

4. Foreign exchange risk (Continued)

(3) Sensitivity analysis (Continued)

The sensitivity analysis above assumes that the change in foreign exchange rate had been applied to the measurement of the financial instruments held by the Group which is the Group's foreign currency risk at the balance sheet date, the analysis of the difference would be different from the analysis of the financial statements denominated in foreign currency. The analysis is performed in the same basis as the sensitivity analysis.

The above sensitivity analysis does not include the currency risk arising from foreign foreign exchange rate, Japanese Yen exchange rate and a currency rate as disclosed in Note IV.2 and IV.26 about financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss, but the change in exchange rate may have an effect on the cash flows and net profit.

5. Other price risks

Other price risk are commodity price risk. As at 30 June 2017, the Group held 40,414,000 shares of Qingdao Pulp International Co., Ltd., 2,996,500 shares of Sinshan Shiling Limited, etc.

As at 30 June 2017, the Group has a general increase/decrease of the commodity price index of 5.00% (31 December 2016: 5.00%), in which the shares held by the Group would increase/decrease the Group's cash flows by 9,158,000 (31 December 2016: 6,651,000).

The sensitivity analysis above assumes that the change in the commodity price index of the commodity would affect the balance sheet date in the measurable range and had been applied to the measurement of all the instruments in the commodity held by the Group. The sensitivity analysis is based on the assumption, namely, the fair value of the instruments in the commodity held by the Group is equal to the commodity price index of the commodity, and available for sale instruments in the commodity have a significant impact on the commodity price index, and all the shares held by the Group are 20.00% change in the commodity price index of the commodity is a measurable range of the Group's cash flows. 20.00% change in the commodity price index of the commodity is a measurable range of the Group's cash flows.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Text has final Reference Only)

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

6. Fair value estimates

The level in the fair value hierarchy is the highest the fair value measurement is categorized in in the hierarchy is determined on the basis of the level in the hierarchy the fair value measurement is categorized in:

Level 1: Quoted prices (adjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included in level 1 that are observable for the assets or liabilities, either directly (e.g., prices) or indirectly (e.g., derived from prices);

Level 3: Inputs for the assets or liabilities that are not based on observable market data (e.g., internally developed in-house data).

(1) Assets measured at fair value on a recurring basis

The following table presents the Group's assets and liabilities that are measured at fair value in the above hierarchy as at 30 June 2017:

Assets	Net	Level 1	Level 2	Level 3	Total
Financial assets					
Financial assets at fair value through profit or loss					
Investments in equity instruments held for trading	IV.2	180,357	-	-	180,357

Total		-	(20,082)	(182,959)	(203,041)

The Group makes the determination of which level is significant and therefore been in instrument in the hierarchy as at the end of the reporting period ended 31 December 2016, based on significant and therefore been in instrument in Level 1 and Level 2 neither Level 2 and Level 3.

For assets in active market financial instrument, the group measures at fair value as an active market; for non-quoted in active market financial instrument, the group uses valuation techniques to determine the fair value. Valuation methods mainly used are discounted cash flow method and market comparable company method. In addition, the valuation techniques include the Black-Scholes model, benchmarking method, exchange rate, credit spread, liquidity premium, EBITDA multiples, the lack of liquidity discount etc.

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

6. Fair value estimates (Continued)

(1) Assets measured at fair value on a recurring basis (Continued)

The following table presents the information for the assets measured at fair value in Level 3:

	Fair value as at 30 June 2017	Valuation technique	Name	Significant non-binding in		
				Scatter/weighted average	Relationship with fair value	Observable/unobservable
Intangible assets - Completed intangible assets	1,126,654	Income model Cost model	Real estate/capital lease Mortgage (RMB/¥ amount in million) Bridged construction be incurred (RMB/¥ amount)	6%-8% 7-9% 650-4,600	(a)	Unobservable
Land leasehold	595,411	Discount method	Anticipated development margin Make price (RMB/¥ amount)	9%-12% 450-2200	(a)	Unobservable

(a) The relationship with non-binding in fair value are as follows:

- The highest of the real estate/capital lease, the highest fair value;
- The highest of the expected discount, the highest fair value;
- The highest of the mortgage, the highest fair value;
- The highest of the make price, the highest fair value;
- The highest of the bridged construction be incurred, the highest fair value;
- The highest of the anticipated development margin, the highest fair value.

Notes to the Financial Statements

For the period ended from January and ended 30 June 2017

(English Text has final Reference Only)

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

6. Fair value estimates (Continued)

(1) Assets measured at fair value on a recurring basis (Continued)

	Fair value at 31 December 2016	Valuation technique	Name	Significant non-observable		
				Scale/weighted average	Relationship with fair value	Observable/unobservable
Inventory	1,139,285		Raw material/capital	6%-8%		
Commodity		Incidental	Mineral (RMB/ton)	7-9%	(a)	Observable
		Commodity	Building construction (RMB/ton)	650-4,600		
			Anticipation of profit margin	9%-12%	(a)	Observable
Land	613,323	Directly	Market (RMB/ton)	450-2200	(a)	Observable

(2) Assets measured at fair value on a non-recurring basis

The non-current assets held for sale are measured at the lower of book value and fair value less disposal costs. As at 30 June 2017, the Group's assets classified as available for sale include inventory of RMB26,401,000, fixed assets of RMB92,269,000 and intangible assets of RMB85,177,000, measured at fair value less disposal costs (Note IV.8). The fair value is estimated based on the best available information (RMB26,401,000, RMB115,743,000 and RMB97,563,000), which belong to the highest level.

(3) Assets and liabilities not measured at fair value but for which the fair value is disclosed

Financial assets and liabilities in the group measured at book value include: accounts receivable, short-term borrowings, accounts payable, long-term borrowings, deposits, long-term payable etc.

As at 30 June 2017, all financial instruments are carried at amounts that are not materially different from fair value.

The fair value of the marketable and fair value determined by the fair value in the market, which belong to the highest level. Fair value of long-term borrowings, long-term payable and deposits payable in the market is determined by the discounted cash flow of the contract in accordance with the market rate and the fair value of the contract, which belong to the highest level.

 (English Translation Reference Only)

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

6. Fair value estimates (Continued)

(4) Estimation and assumption of fair values

The following summarize the major methods and assumptions used in estimating the fair value of financial assets at a fair value higher than cost and financial liabilities at a fair value higher than cost, available-for-sale financial assets on the balance sheet date.

(1) **Financial assets and liabilities**

Fair value is based on the market price at the balance sheet date of financial assets at a fair value higher than cost and financial liabilities at a fair value higher than cost (excluding derivatives), and available-for-sale financial assets if there is an active market.

(2) **Financial assets**

The fair value is estimated at the present value of the future cash flows, discounted at the market rate at the balance sheet date.

(3) **Derivatives**

The fair value of buying, debenture, long-term and non-derivative financial liabilities is estimated at the present value of future cash flows, discounted at the market rate at the balance sheet date.

(4) **Financial instruments**

The fair value of the change in contract liability is based on the liability to be discounted in the contractual liability and deducting the contract asset. The fair value of the derivative liability is based on the market price. The derivative is measured at fair value based on the market price and market price of each contract and is made in the same manner as in the measurement date.

(5) **Financial instruments**

The fair value of financial guarantee is determined by reference fee charged in an arm's length transaction in a similar case, when such information is available, if there is no available reference fee in the differential, by comparing the actual fee charged when the guarantee is made available with the estimated fee had the lender had the guarantee not been available, the reliable estimate of such information can be made.

Notes to the Financial Statements

For the period ended from 1 January and ended 30 June 2017

XV. CAPITAL MANAGEMENT

The Group's objective of managing capital is to safeguard the Group's ability to continue as a going concern in order to provide a return for shareholders and benefit the other stakeholders and maintain an optimal capital structure to reduce the cost of capital.

In order to maintain and adjust the capital structure, the Group may adjust the amount of dividend paid to shareholders, issue new shares, issue new debt, or issue new debt.

Total capital for the Group is the sum of shareholders' equity and the consolidated balance sheet. The Group's objective is to maintain a capital structure that is in line with the industry, and to reduce the cost of capital.

The Group's main capital structure is the Debt-Equity Ratio. This ratio is calculated as total liabilities divided by total assets.

In 2017, the Group managed capital structure by controlling the Debt-Equity Ratio to be not exceed 70% (2016: not exceed 70%). The Debt-Equity Ratio at 30 June 2017 and 31 December 2016 are as follows:

	30 June 2017	31 December 2016
Total Liabilities	89,626,971	85,479,956
Total Assets	129,498,854	124,614,748
Debt-Equity Ratio	69%	69%

XVI. NOTES TO THE HOLDING COMPANY'S FINANCIAL STATEMENTS
